LEGISLATIVE JAM IN CONGRESS

CONGESTION IS ACUTE, ONLY 3 DAYS REMAIN

YOUTHS SIGNED NO CONFESSIONS

MILLERAND WON'T QUIT

WITNESSES ARE RELIED ON FOR ALL EVIDENCE

Senate Most Affected With Efforts to Get Vote on Muscle Shoals and Farm Relief Legislation.

(By The Associated Press.)
WASHINGTON, June 4.—Congress, with adjournment set for 7 p. m., Saturday, suffered today from acute legislative congestion.

The Senate side was the most affected of the two, one group, headed by Senator Underwood, Democrat, Alabama, being determined to get a vote on the Muscle Shoals question and another, led by Senator La Follette, Republican, Wisconsin, being on record as opposing any action not designed for the relief of agriculture.

Miss Elliott Died Today at Dry Fork

DRY FORK, Va., June 4.—Miss Betty Elliott, 32 years of age, who has been very ill with heart-drops for some time, quietly passed away this morning, shortly after midnight. For several days she had steadily grown worse until her death.

MUSSOLINI PROTECTED

ROME, May 4.—An old servant from Mussolini's native province watches jealously over the Italian premier's health and safety. Whenever a stranger brings a present to the house, the old man feels it, smells it, and tries to imagine what it can be.

CONFEDERATE VETERANS OPEN ANNUAL RE-UNION, MORE THAN 4,000 PRESENT

Gather to Live Over the Days of Sixties—Sons Organization and Memorial Association Also in Session—Speeches Made.

(By The Associated Press.)
MEMPHIS, Tenn., June 4.—Soldiers of the "old south" warriors in the cause of the Confederacy, reunion here today with upwards of 4,000 of the veterans of the gray on hand to live over the days of the sixties.

ILL LUCK AGAIN PURSUES WORLD CIRCLING FLIERS

Flag Plane Laggard as Two Others Go On to Shanghai

(By The Associated Press.)
SHANGHAI, June 4.—Lieut. Leigh Wade and Eric Nelson, American army aviators, who were flying the world's first circumnavigation of the globe, arrived today at Shanghai. The two planes arrived at 3:05 p. m., covering the 500 miles from Kagoshima in seven hours and 35 minutes, including a brief stop in Kagoshima bay.

The American round the world aerial expedition, pursued by the ill luck which robbed it of its flag plane, the Seattle, together with the commander and his mechanic, Major Frederick Martin, and Sergeant Alvin Howard, again was divided today and once again it was the flag plane which was the laggard.

County Democrats Meet at Chatham

(Special to The Bee)
CHATHAM, Va., June 4.—Democrats from all sections of the county were gathered here this afternoon to attend the county convention which met at the courthouse at two o'clock for the purpose of electing delegates to the Norfolk Democratic Convention on June 11th.

HEART SEIZURE CAUSES DEATH OF T. A. WATKINS

(Special to The Bee)
CHATHAM, Va., June 4.—T. A. Watkins, prominent citizen of Chatham, died unexpectedly this morning at 7:30 o'clock. Mr. Watkins was engaged at moving his back lawn on Main street when he was taken ill and died almost instantly. He was 55 years of age and had been for many years local manager of the Dan River Mutual Fire Insurance Company.

Notice!

By request of its many new subscribers The Bee will on next Monday publish in a condensed form the preceding installments of "The Tangle"

WALSH IS SLATED FOR PERMANENT CHAIRMAN

(By The Associated Press.)
WASHINGTON, June 4.—Strong indications were apparent in Democratic circles today that Senator Thomas J. Walsh, of Montana, probably would be selected as permanent chairman of the party's national convention in New York.

TOWN TOPICS

The Danville Rotary Club has been invited by Rev. Joseph Gresham, pastor of Calvary Methodist church, to hold a revival service at that church which is being conducted by Carey Barker of Lynchburg.

The city health officer is recommending to the city council through the public welfare committee the utilization of city prisoners in efforts to drain stagnant pools in and around the city which are potential breeding places for mosquitoes.

Eighteen ballot boxes will be needed in next Tuesday's election, three at each of the six city voting precincts.

The State Corporation Commission, which was recently appealed to by the Danville and Western Railway Company for permission to close certain stations on its line between Danville and Stuart, has not yet reached a decision on the matter.

Eight Danville veterans are attending the annual Confederate Reunion this week at Memphis, their traveling expenses being paid by the city following the usual custom.

E. R. Diggs who on Monday was appointed secretary of the Chamber of Commerce to succeed Henry B. Watkins assumed his work this morning and was busy familiarizing himself with his new duties.

The nine members of the city council today joined in issuing a statement replying to recent issues raised in connection with its administration of city affairs.

Miss Mozelle Myers has returned from Hollins College where she attended commencement. Miss Myers was accompanied home by a former schoolmate, Miss Sarah Mallory, of Paris, Texas, who will be her guest for some time.

DETERMINED TO REMAIN UNLESS HE'S VOTED OUT

French President Declares He Will Not Resign His Office.

(By The Associated Press.)
PARIS, June 4.—President Millerand summoned Paul Painleve, former premier and newly elected President of Chamber of Deputies to Elysee Palace today for a consultation in regard to the formation of a new cabinet to succeed the outgoing cabinet headed by Raymond Poincare.

(By The Associated Press.)
PARIS, June 4.—Paul Painleve, former premier of France, today was elected President of the Chamber of Deputies, 296 votes having been cast for him as against 209 for Andre Maginot, former minister of war.

(By The Associated Press.)
PARIS, June 4.—President Millerand made known to his friends today that he was determined to remain in office under any circumstances unless he should be a majority vote in both the Senate and chamber of deputies asking him to retire.

The adversaries of the president are not without cause for concern. It is understood that a motion will be introduced in the chamber today raising the presidential question and giving the house an opportunity to pronounce its verdict at once.

ROAD ENGINEERS IN RALEIGH TODAY; BEGIN INSPECTION

(By The Associated Press.)
RALEIGH, N. C., June 4.—Highway engineers from North and South America, diplomats from a dozen South American governments and highway and other officials of a dozen nations were welcomed to North Carolina today by Gov. Cameron Morrison on behalf of the state and Frank Pace, Chairman of the North Carolina Highway Commission.

The actual road show opened shortly after eleven o'clock, when the official party and guests left the city in automobiles for Durham.

The inspection and travel over North Carolina roads which commenced this morning with the trip to Durham was the first day's program of the one thousand mile trip over North Carolina highways which will end at Asheville next Tuesday night.

W. C. LIGHTFOOT DEAD

(By The Associated Press.)
NEW YORK, June 4.—William C. Lightfoot, head of the claims department of the Old Dominion SS Company, died in a hospital here last night.

Contests For Seats at G. O. P. Meeting Before Committee

(By The Associated Press.)
CLEVELAND, O., June 4.—At the closing of the first delegate contest today, the Republican national committee unanimously voted to seat Wm. T. Gallager and Thomas L. Jones, the latter a negro, both of Washington, as delegates at large from the District of Columbia.

(By The Associated Press.)
CLEVELAND, June 4.—Contests for seats in the Republican National Convention here next week, brought by the Richmond Times-Dispatch and the District of Columbia, came before the Republican National committee upon its assembling here today.

DANVILLE FOLK ARE INVITED TO BIG ROAD RALLY

Danville will be well represented tomorrow at the entertainment at Yanceyville, N. C., which is to be given in the honor of the Governors of Virginia and North Carolina and a group of South and Latin-American notables who are inspecting the roads for which North Carolina is now famous.

It is understood that there will be little speech making at Yanceyville beyond an address of welcome and a reply which, it is understood will be delivered by Frank Pace, chairman of the State Highway Commission.

E. R. Diggs, secretary of the Chamber of Commerce, this afternoon received by him today from Nello Teer, the Person county contractor, whose work on the Highway road will be watched by the governors and other officials of a dozen nations.

Woman Among the Delegates to Speak For Pres. Coolidge

(By The Associated Press.)
CLEVELAND, O., June 4.—Mrs. Florence Porter of Pasadena, California, will be among the four or five delegates who will make addresses on the nomination of President Coolidge at the Republican national convention here next week.

CITY HOME MERGER WILL BE DECIDED ON SATURDAY

The Board of Supervisors of Pittsylvania county have agreed to meet the City Home Commission and the Pittsylvania Board of County Welfare next Saturday afternoon at the city of the new city home with a view to discussing and very probably acting upon the proposed merging of the county and the city establishments. The board was invited to take part in such a conference at Monday's meeting in Chatham on Monday. It is favorably understood that the board is prepared to take definite action on the ground thus settling the

COL. IRBY WHO MADE GOOD IN WEST IS DEAD

A telegraphic despatch from San Francisco last night brought word of the death there yesterday of Col. John S. Irby, newspaper editor of the Richmond Times-Dispatch and a prominent in the political field of that state and a brother of Mrs. E. L. Walton of this city.

Col. Irby was 52 years of age and was a native of Halifax county being the son of a prominent family. He was a graduate of Richmond College and in early manhood entered upon a newspaper career. He became managing editor of the Richmond Times-Dispatch and it was while holding this position that his health became impaired and he was ordered to the more bracing climate of the West. This was 27 years ago. Col. Irby took up newspaper work in Colorado, his adopted state, and soon became controlling figure in the Democratic councils of that state.

It is interesting to note in connection with Col. Irby's death, that on leaving his native state he settled in Denver, Col., which was named for General J. W. Denver, also a Virginian born at Winchester, October 23rd, 1817. General Denver went West in 1858, settled in St. Charles when Colorado and Kansas were then territories and served as territorial governor of the latter state. He later dropped its name and assumed the name of Denver, for the Virginian, and it was largely his influence as governor which brought about subdivision of the two states, Kansas and Colorado.

Lowden Speaks at State Capital

(By The Associated Press.)
RICHMOND, Va., June 4.—No other member of the country has so many natural advantages for dairying as the South, former Governor Frank O. Lowden, of Illinois, president of Holstein-Friesian Association of America, declared today in an address before the organization, which is holding its annual convention here.

SCHOOLFIELD REVIVAL IS WELL ATTENDED

The revival meeting at the Schoolfield Methodist church is making good progress. The services conducted by Rev. J. M. Oakley, are being well attended and much interest is being manifested. Last night ministers from Schoolfield and Danville were seen in the congregation. The fine song service marks one feature of the meeting, under the direction of P. J. Bynum.

Leopold and Leob Have Signed No Statements of Guilt—Guard Them to Prevent Suicides.

(By The Associated Press.)
CHICAGO, June 4.—Nathan Leopold, Jr., and Richard Leob, millionaires sons, admitted kidnappers and slayers of Robert Franks, school boy son of wealthy Jacob Franks, have signed no confession of guilt, it became known today and the state, which has asked the grand jury for murder indictments, must rely on testimony of witnesses who heard their statements.

Double guards have been placed to watch the county jail cells of the pair day and night until they are tried. Fearful that either may attempt to carry out previously expressed desire to die, food taken to them is rigidly inspected and jail employees have been cautioned to prevent smuggling to them of any means for self-destruction. The precautions were taken after a conference of jail officers with state attorneys when the grand jury completed its first days inquiry yesterday.

EASILY QUIZZES DR. BRYAN AS TO POOL CONDITION

(Special to The Bee)
HALIFAX, Va., June 4.—It may be next week or even later before further effort is made to test the question of jurisdiction between Judge H. B. Gregory sitting at Halifax court in the Pool case and Judge R. Carter Scott, of Richmond, between whom a conflict has arisen over the serving of a capias on the accused, basing his action on the fact that he would not be able to set the date until he has received a further letter from Dr. Bryan bearing on the case. It is just possible that no effort will be made to test the case until a few days before June 23 when the Pool case is set for hearing in Halifax, and that doctors treating the accused will be given an opportunity to build him up so that he may better withstand the test.

The commonwealth's attorney is in correspondence with Richmond on the subject of the capias. A letter from Dr. Bryan of Grace hospital in reply to one from Mr. Easley asking for a detailed description of the patient's condition. The reply, according to Mr. Easley, failed to disclose certain information that was asked and was not, he said, specific enough as to the actual present condition of the man. It was more of a history of Pool's chronic ailment, concluding with the statement that Pool was in a precarious condition.

Mr. Easley has written back to Dr. Bryan seeking for specific data on his condition at this time. Enquiry reveals that no reference is made in the letters from Dr. Bryan regarding an impending operation on Pool which was recently reported.

question which has been up for some weeks. Under the terms of the merger the county would build a new wing to the city home now in course of erection and would pay a proportionate share of the maintenance of the inmates on a per capita basis provision being made for the termination of the merger after a term of years. The county almshouse has been complained of many times of recent months and the supervisors appear to be determined to do away with the present institution and to either erect a new one or to join hands with Danville which was probably the most advantageous course from a financial viewpoint.

MYSTERIES OF THE ANCIENTS
The Department of Agriculture of Egypt has seeds which were found in age-proof containers in the tomb of King Tutankhamen which they are endeavoring to propagate at their Agricultural Research Laboratories. These seeds may represent herbs containing medicinal properties that this age and generation knows not of. It was the simple roots and herbs of the field that half a century ago produced Lydia E. Pinkham's Vegetable Compound, a remedy that has never been equalled in overcoming ailments peculiar to women.—adv.

Flies and Mosquitoes Destroyed with Ease

Few sprays of Dethol clear whole house of these pests

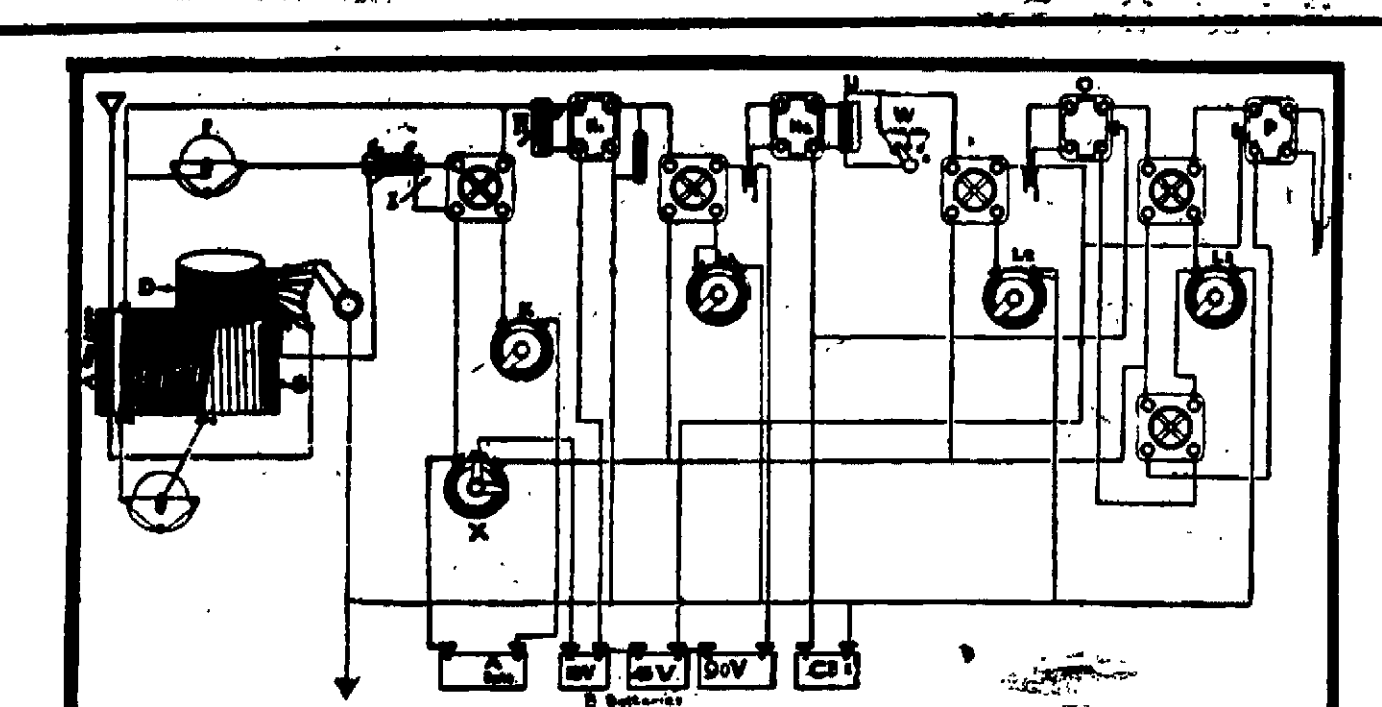

Once again science has made an important contribution to human health and happiness. A discovery that enables every home to be free, at last, from the menace of filthy, disease-carrying flies and annoying mosquitoes. Dethol is the name of this ultra-modern insecticide. A liquid spray, formulated by Richmond chemists after years of careful experiment. A simple, effective preparation that destroys all forms of insect life—quickly and economically. Even if a room is filled with flies, a few sprays of Dethol soon will kill the last, lingering one. Sprayed about the porch in the early evening, Dethol destroys every mosquito within range and forms an invisible blanket, the odor of which warns away other mosquitoes for hours. Dethol also is particularly effective against roaches, ants, bedbugs and other loathsome insects. Its penetrating spray searches out the hiding places of these pests and quickly destroys them. It does not stain. Many housewives find that Dethol is invaluable, too, in cleaning windows, tubs, tile, marble, etc. It cuts grease and dirt like magic. You simply wipe the sprayed articles clean with a damp rag. Sprayed in musty places about the house, also, Dethol purifies and disinfects the air like a refreshing breeze. Full directions on can. You really cannot afford to be without Dethol. If your drug store, grocery, hardware or department store hasn't Dethol, we will send you the handy combination package—complete with sprayer and large can of liquid—post free, on receipt of one dollar. Dethol Mfg. Co., Inc., Richmond, Va.

He's Coming Down! WHO?

You can make an **EXCUSE** to yourself but not to Nature. She is no respecter of persons. When you go against Nature by overeating, falling, straining, etc., one of the bones of the spine is apt to slip out of line, producing pressure on a nerve trunk, causing the part it supplies, to become weak. You can take your choice of two alternatives:—suffer the consequences by paying the penalty of poor health or have the cause removed by

Four-Circuit Tuner Offers Volume

HOOKUP DIAGRAM OF THE FOUR-CIRCUIT TUNER.

By ISRAEL KLEIN
NEA Service Radio Editor
Experienced radio fans dabbling with hookups during the summer months might try putting together the improved four-circuit tuner designed by Laurence M. Cockaday, famous radio engineer.

It is well worth the time and trouble for reports from users of this circuit are highly encouraging. The receiving range is said to be over 3400 miles, the tuning unusually selective and the volume proportionately high. Besides, these advantages are claimed for the set:
Wave-length range from 150 to 675 meters.
Ease of tuning.
Truthful reproduction.
Automatic tuning.
Simple construction.
Adjustable circuit values.
This means that any novice may be able to work the set with the least difficulty. Oscillation of the detector tube may be controlled to a fine degree so that the set may be put into critical, regenerative condition.
Special Coils.
The parts for the set should cost about \$95. They should be the best pieces of apparatus obtainable. They consist of the following:
Four-circuit coil unit, consisting of coils A, B, C and D, which may be built—follows:
A—Primary winding consisting of a single turn of bus wire.
B—Secondary, consisting of 65 turns of No. 18 D. S. C. copper wire.
C—Stabilizer, consisting of 34 turns of No. 18 D. S. C. copper wire, over first part of B. These three are wound on a 3/4-inch tube 5-16 inches long.
D—Antenna tuning coil, consisting of 43 turns of No. 18 D. S. C. copper wire. This is double bank wound and tapped at every sixth turn. It is on a 3/4 inch tube 1 1/2 inches long and is placed above B and at right angles to it.
Other Parts.
E, F—Vernier variable condensers, .0005 mfd. capacity.
H—Small variable grid condensers.
I—Variable grid leak, 1/4 to 10 megohms.
K—Filament rheostats, 6 ohms.
L1, L2, L3—Rheostats, 20 ohms each.
N1 and N2—Audio-frequency amplifying transformers.
O—Input push and pull transformer.
P—Output push and pull transformer.
T—Fixed condenser, .0005 mfd.
U—Variable grid leak and fixed condenser, .00025 mfd.
W—Three fixed resistances, 48,000 ohms.
X—Potentiometer, 400 ohms.
Five tube sockets.
Two closed circuit jacks.
One open circuit jack.
Two switch levers and knobs.
Eleven switch points.

BRITISH ERECT MEMORIAL TO THE VICTIMS OF R-28
HULL, England, June 3.—The memory of the little band of English and American sailors who were killed when the ship R-28 was destroyed at Hull, will be kept alive by a memorial erected in the western cemetery here by the British air ministry. The memorial is a pedestal surmounted by an eagle and occupies a plot of ground where six of the victims are buried.
Sir Vyell Vyvyan, air vice-marshal, representing the air ministry at the unveiling, in an address said it was the common sacrifice was founded the bond of sympathy and mutual understanding between the United States Great Britain.
Captain Hussey, United States naval attaché in London, represented his government and the American ambassador. He paid a tribute to those who died in the disaster, terming them a sacrifice to the future generations to whom aircraft would be a source of strength and protection.
At the conclusion of the ceremony wreaths were placed on the graves of the men by the lord mayor and sheriffs of the Corporation of Hull.

MISSION BOARD TO MEET

The City Mission Board will meet this morning at eleven o'clock at the Wesley Community House.

DAILY PUZZLE

A man was asked how many children he had. He replied:
"One-third, plus a half of a third of two-thirds of three."
Is one-third of all the children which belong to me?
How many children did he have?
Yesterday's answer:
The pyramid contained 20 rows. 10x10 equals 100; one-fourth of 20x20 (400). 10 equals one-fourth of 40; and 1 equals one-fourth of 4.

10X10
100
20X20=400

FELT STUPID, DULL, FEVERISH

Mississippi Lady Says Black-Draught "Greatly Relieved" These Symptoms and She Has Used It 20 Years.

Starkville, Miss.—"I have been a user of Black-Draught for about twenty years," recently said Mrs. C. E. Buntin, of near here. Mrs. Buntin, who registered for the first time this year to vote in a county election, is hale and hearty, in spite of her 72 years, and is still active in the duties of housewife.
"I used Black-Draught first for constipation," continued Mrs. Buntin. "I would feel dull, stupid, and have severe headaches, even feverish. I had an uneasy, tight feeling in my stomach."
"I read quite a bit about Black-Draught. I began using it and soon my bowels acted regularly and I was greatly relieved. I used it every once in a while for about eighteen years. About two years ago I found I was having indigestion a tight smothering in my chest, then severe pain especially after eating sweets. I commenced taking just a pinch of Black-Draught after meals and by doing this I could eat about everything."
"I gave Black-Draught to my children for colds and headaches. I can certainly recommend it."
"Black-Draught is safe, easy to take and reliable. Costs only one cent a dose. Try it."

DANVILLE TO BE ASKED TO HAVE EXHIBIT IN NEW YORK

RICHMOND, Va., June 4.—Danville will be asked to have an official city exhibit in the Virginia section of the Southern Exposition in New York City January 19 to 31, it was announced today by the Virginia chamber of commerce, headquarters of the committee of business men who are backing the movement in Virginia. The request will be made of the president of the city council and he will be asked to bring it before that body.

Danville, with her cotton mills, tobacco industry, lumber, hosiery and furniture businesses, could place as fine an exhibit in the Grand Central chamber said. With her water power and proximity to the great farming areas which furnish the raw products for her mills, she should take a leading place among the cities of the State in this work in the belief of officials of the State chamber of commerce.

It is pointed out that the city has a fund for advertising and a committee in charge of this work and that an equally great deal of work is done to bring the city to the attention of in-

vestors and manufacturers. Officials of the Virginia committee on exposition believe that money could be spent in no better way than by joining other cities and citizens of Virginia in the exposition.

The exposition will show to the world what the South has done and is accomplishing. The South desires buyers for its products, to attract visitors, gain new citizens, to attract manufacturers, farmers, professional and business men, and there would be no better opportunity to do this work than through the exposition proposed.

Governor E. Lee Trinkle is honorary president of the organization. He has been named honorary vice-president, Virginia, as always, is given the lead among the Southern States, but Virginia is the only one in the entire South that has not agreed to take her exposition space in full to date.

Under the direction of the chambers of commerce of the State, working with the Virginia State chamber of commerce, which is the leading spirit, a campaign to complete Virginia's quota will be closed June 15. No exhibits will be received after this time.

500 Loans Made By Credit Corp.

Loans aggregating \$75,000, have been paid out to farmers of this section through the Agricultural Credit Corporation of Virginia, W. R. Fitzgerald, president of the corporation, said this morning in expressing an encouraging view as to its operation this morning. The number of loans approximates five hundred, nearly all of these to tobacco growers in the immediate vicinity of Danville. Mr. Fitzgerald has made it possible now to grant loans to farmers in more distant sections and applications have been received from the Chatham district as well as from Leesville, N. C. The number of applications for loans has not been as heavy during the past few days, indicating that farmers with pressing obligations and in need of money to meet them have obtained service at the local office where the loans are paid.

D. and W. Extension Not Yet Decided

The question of adding an eight mile line to the Danville and Western Railway from Stuart to the lumber tract in Patrick, purchased some months ago by the Meadowcroft Lumber Company, has not been definitely decided. Major Theo. Parker, superintendent of the Danville and Western Railway Company, stated this morning. The lumber company has been engaged recently in making estimates of the cost of running a narrow gauge road from Stuart into the lumber tract, also from Mt. Airy, through which it might be possible to reach the tract, though the distance would be longer than from Stuart. The people of Stuart are reported to have co-operated in every way in securing the decision to extend the Patrick line, since it would mean much to the county seat. No decision, however, has been reached.

Son of the First Husband of Lady Astor Weds Actress

(By The Associated Press.) NEW YORK, June 4.—Broadway learned today of the marriage in Carthage, N. C., May 23, of Richard Shaw, Jr., son of the late Richard Shaw, first husband of Lady Astor's first husband, to Miss Hilda Burt, playing here in "Poppy".

The marriage was announced by Mrs. E. K. Burt, mother of the bride. The groom's father stated he approved of the marriage, having purchased his son an estate in Pinehurst, N. C. The groom's mother is the former Mary Harrington Converse.

JAPANESE LIGHT CRUISERS SHOW DEFECTS ON TRIALS

TOKIO, June 3.—Japanese naval authorities are anxious about the performance of some of their newest light cruisers, which are being launched at the rate of two a year by domestic shipyards. Newspaper reports of defects are substantially confirmed by well informed experts.

The light cruiser Tama, 5,500 tons, developed engine trouble recently during her trials, it is understood, and a few days previously the smaller cruiser Yubare showed similar defects in her trials.

Witnesses Are Relied On For All Evidence

(Continued from page one.)

Loeb as his assailants, authorities are skeptical until an investigation, under way, has been completed. Unofficial inquiry also is being made into the death several months ago of a Melvin Wolf, pronounced a suicide by the police after his body was found in Lake Michigan. Wolfe lived in the same neighborhood as Franks, Leopold and Loeb.

The slain boy's father was the first witness to appear before the grand jury. After his testimony he expressed sorrow for the parents of the two youths, but said he would be willing to spring the trap if the boys were sentenced to be executed.

STRANGE CHARACTERS

By OWEN L. SCOTT (Copyright, 1934, by The Bee)

CHICAGO, June 4.—The age-old Biblical doctrine, "spare the rod and spoil the child," is finding forceful vindication once more in the case of Nathan Leopold, Jr., and Richard Loeb, brilliant examples of a modern, more flabby, un-Spartan theory of child education, who slew young Robert Franks, for a "thrill."

Pampered, petted, tutored and coddled, the two youths, who were money can buy, young Leopold and Loeb had been brought up by baby-love to be the proud successors of wealthy Chicago business leaders. Every restriction that youth normally encounters in its development was removed by money. Each of whom their carefully studied minds was granted, that there might be no hampering of the full play of latent abilities—unchecked by their own masters, they grew to young manhood under conditions that sponsors of modern methods of child raising would term ideal.

Now, pitiable, up-scaled creatures, a veneer of polished sophistry, their only asset, they are face to face with the gallows. Nurses, tutors, private schools, cars, chauffeurs, unlimited wealth—all failed to give that moral training which is the leading spirit, that understanding of social relationships which they needed to fit them for the place in society to which their family standing would naturally entitle them.

Both lads had shown a decided mental precocity in early youth. Taken as a sign of genius, this precocity was carefully developed, until it brought Loeb recognition as the youngest student of the University of Michigan, and Leopold honor as the most youthful of University of Chicago law students. Other sides of these young lives were neglected for the sake of the brilliant possibilities of carefully-tutored minds.

But the system gradually got the better of the boys. They came to believe themselves supermen, intellectuals, "mischief-makers." They took to drinking—became cigarette fiends—went with women of many characters, all still in their teens.

Even weird, bizarre foods were eaten, Leopold said, in the quest of "thrills." He told of drinking dog meat, horse meat, raw fish, sea weed and bamboo shoots—all for the kick. They must at least have toyed with the idea of sampling human flesh, for Leopold dropped the observation that "convention a one keeps people from eating human flesh."

Next, according to the theory on which the authorities now are working, they went in for experimentation with the knife, upon their fellow humans. An effort was being made to fasten the blame for one criminal operation of a young chauffeur and for a similar attempted operation which resulted in murder when the victim fought back.

Loeb said he believed that these young supermen to justify their crime against fellow men as "for an entomologist to justify the impaling of a beetle on a pin." Then came the final "thrill" of the murder of a helpless boy, a second cousin of young Loeb.

Sublime egoists, perverts, literary peeping toms, jazzmaniacs, are some of the terms that psychologists are trying to put on the boys in an effort to classify them. They see in the bold, braze, depraved flippancy of Leopold as he brags and talks of the latest "thrill"—the killing of a human being—a mind overbalanced that it represents almost a new type. Sadism, in its most flagrant form, possibly. The enjoyment of pain inflicted on another person. O. Krohn, alienist, who has examined the boys for the State's attorney, sets them down as simple "smart Alecks." Youths of their age have a natural bent toward devilry. In the ordinary course of life, by discipline this inclination displays itself in harmless pranks. In the one-sided, mental over-development of Leopold and Loeb, is brought killing. Even less-favored home surroundings, neglect, setting with a wrong crowd, some troubles of these experimenters might have been averted. An application of the rod might have removed the threat of the gallows.

BOND HOLDERS OF V. C. CO. TO BE PROTECTED

NEW YORK, June 4.—Proceedings to protect the interests of the bond holders of the Virginia-Carolina Chemical Company, which was placed in the hands of receivers last March 3, have been started in all states in which the company has property. George W. Davidson, president of the Central Union Trust company and chairman of the committee representing \$25,000,000 firm mortgage 7 per cent. bonds of the company, said today.

The committee followed the failure of receivers to provide funds to meet the June 1 interest and was said to indicate that the majority of the bond holders were not satisfied with arrangements by which the committee had agreed to deposit bonds to cover the interest payments due. The action is also looked on as a preliminary to the re-organization of the company.

Foreclosure Proceedings Started in Each State Concern Has Property

(By The Associated Press.)

NEW YORK, June 4.—Foreclosure proceedings to protect the interests of the bond holders of the Virginia-Carolina Chemical Company, which was placed in the hands of receivers last March 3, have been started in all states in which the company has property. George W. Davidson, president of the Central Union Trust company and chairman of the committee representing \$25,000,000 firm mortgage 7 per cent. bonds of the company, said today.

Re-Union of Vets Opens In Memphis

(Continued from Page One.)

(Continued over to Commander Halde-man.)

GEN. LYNES SPEAKS

(By The Associated Press.)

MEMPHIS, Tenn., June 4.—Recalling that exactly one hundred years ago "the beloved Lafayette" came to fight against the country he had fought to free, General J. Colton Lynes, of Marietta, Ga., speaking before the thirty-fourth annual reunion of the United Confederate Veterans, here today, paid a tribute to the South by Marshal Ferdinand Foch on a visit to Atlanta more than two years ago.

"Upon that occasion, General Lynes said, he told Marshal Foch that the surviving members of the Confederacy regarded him as the military hero of the world, at the conclusion of which the marshal responded by logging Robert Lee and study, I have familiarized myself with the remarkable campaigns of Generals Lee and Jackson. Great as were the achievements of Lee as a general, incomparably greater than his military genius was his grand and unmatched moral character. His unselfishness, his patience, his love of justice, all his attributes combine to make him the embodiment of the ideal of a citizen, without fear and without reproach, pure of thought and speech, never irreverent."

"Today," continued General Lynes, "the speaking of Foch, the military hero of the world, I doubt if there is another man in all the world who is more generally and genuinely magnetic. He is the idol of the American people, just as he is the idol of the soldiers of France, Belgium, England and Italy. And well may he be, for it is of him that he led, as did Stonewall Jackson, with victory his goal, manly his guide, his trust and confidence, the pillar of his trust and confidence."

The text of the address follows:

"Honorable Commander and Comrades:

"Marshal Ferdinand Foch, late commander-in-chief of all the allied armies during the last year of the World War, the foremost military figure of this or any age, was the guest of the United Confederate Veterans for a memorable hour that formed a glorious chapter in his history.

"Just a century ago, it was in 1824, that the beloved Lafayette came to America, the first of the great leaders of the world, the man who had fought with him like a garment, wrapping him about; and American, remembering Brandywine and Yorktown, wept and laughed to see that gallant figure, gray then, whose sword in comradeship with Washington.

"Never before has Atlanta a guest whom with such reverence and affection she has received. This old man, Marshal Foch, whose military genius crushed the German power and saved civilization.

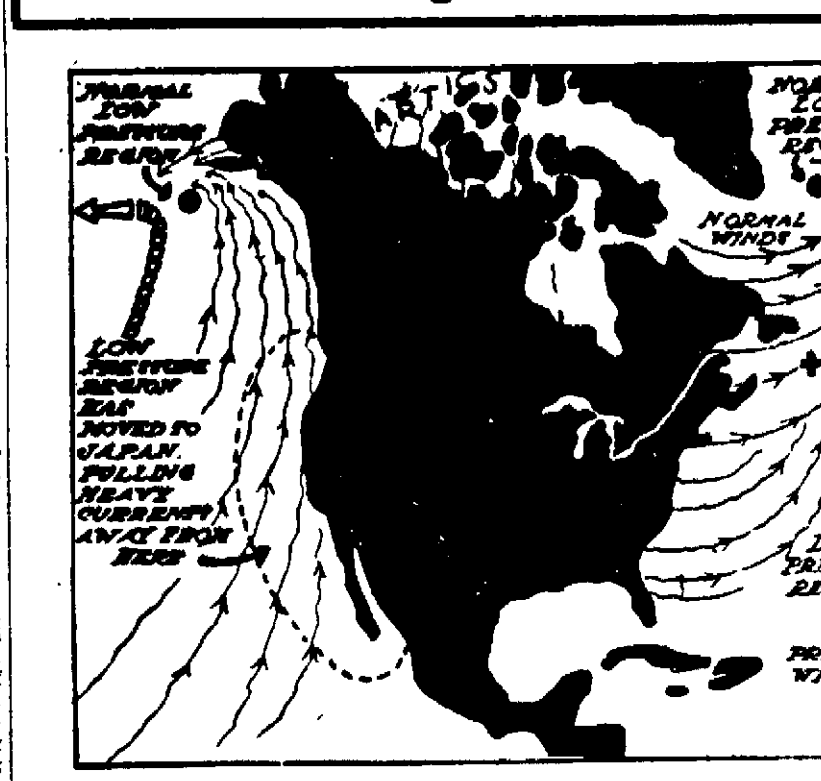

"August 7th, 1918 Foch was made marshal of France, and alternately the American, French and British armies. The German retreat changed into rout in November and on the 11th, Foch declared the terms of the armistice.

"Within six months he had brought the war to a successful termination. Thus saving the tremendous loss of life which would have resulted from its prolongation.

"Today the marshal is the military hero of the world. I doubt if there is another man in all the world who is more generally and genuinely magnetic. His bearing is that of the trained soldier, his smile that of the conqueror not seeking a conqueror, his step that of independence and confidence, his composite appearance that of one who has lived in tragedy and emerged in love and tranquility. Grasp his hand and it is the clench of a friend, catch one eye and it is the gaze of a self-contented; address him and the response rings with the richness of experience and the fullness of emotion. One sees in him the essential qualities as a warrior, as a strategist, as a Christian man, pinned at the head of the greatest of all armies.

"Marshal Foch is the idol of the American service man, just as he is the idol of the soldiers of France, Belgium, England and Italy. And well may he be, for it is of him that he led, as did Stonewall Jackson, with victory his goal, manly his guide, God his inspiration and the pillar of his trust and confidence."

What's Wrong With Weather?

MAP ILLUSTRATES SUPERVISING FORECASTER BOWIE'S EXPLANATION OF HOW MOVING ABOUT OF LOW PRESSURE REGIONS IN NORTH HAS AFFECTED WEATHER IN THE UNITED STATES.

By LARRY BOARDMAN
NEA Service Writer.

WASHINGTON, May 4.—Off the coast of Greenland, in a spot that isn't sood for much else anyhow, the weather for most of the United States is made.

When this spot remains off the tip of that country in the springtime, we have normal weather. But it has slipped south and west. That's what has caused rain on the Atlantic seaboard, floods and tornadoes in the central States and snow as far away as the Dakotas, says Major Edward H. Bowie, supervising forecaster of the U. S. Weather Bureau.

This shifting spot is known as the normal low pressure area.

How does the pressure area govern the weather?

When the air in a given region is warmed it becomes lighter, forming a low pressure area. Heavier, colder air rushes in. The warmer air with its quips and moisture is forced higher. There it is cooled and condensed. Its capacity for holding moisture is less and the moisture forced out in the form of rain and snow.

But the cold air rushing toward a low pressure area does not go in a

straight line. Due to the rotation of the earth it veers to the right.

So the colder currents headed toward the Greenland low pressure area instead of sweeping by the United States as they usually do are sweeping over the country on their way from the pole to the low pressure area.

These currents have chilled the country and forced the moisture out of the air, giving us our present weather.

West of the Rockies the condition has been the reverse.

The Pacific low pressure area has moved from the tip of Alaska toward the Japanese coast.

The colder air currents in their race to this place have missed the Pacific coast.

The air there remains warm, holding its moisture and causing the drought.

"It is impossible to predict weather conditions months ahead," Bowie says. "But I will say it is almost certain that the weather will return to normal. Weather conditions are like a pendulum—swinging to and fro, and in the course of natural events this pendulum is due to reach the normal point in its swing."

He ended his triumphant tour of the country as the guest of the American Legion in middle December and returned to the France he saved.

His speaker had the distinguished honor of being on the committee of reception at Piedmont Park and of being the first to approach and address the marshal on the platform. Noting what he was regarding critically my Confederate officer's grey uniform, which closely resembled his own, addressing him in his own language I said, "Monsieur le Marechal, the uniform which I wear is the Confederate uniform, and was worn by our great general, Robert E. Lee, and his masterful aide, General Stonewall Jackson. I appear in it today, being charged by the surviving members of that army to tell you that they are proud of you as the present military hero of the world. That not only do they revere you, but love you, finding, in you something very much of that glorious 'knighthood' which was the glory of the land of France, that never glows in Southern memories, that glows forth from our hearts today in joyous, grateful welcome to you, the Marshal of France, and the savior of modern civilization."

"At the conclusion of these remarks the Marshal advanced toward me, and taking my hand, held it and frequently pressed it, as he spoke, in French, the following words in reply:

"Monsieur le General: You and your comrades of the brave army of the late Southern Confederacy, give me, on this occasion, a pleasure and an honor which I shall ever remember as one of the greatest which I have received on this ever memorable tour of your grand and reunited country. It is my country, as well as myself, that you are honoring, and the name of France, and from my own heart, I thank you and your brave comrades."

"By reading and study I familiarized myself with the remarkable careers of Lee and Jackson. Great as were the achievements of Lee as a general, incomparably greater than his military genius was his grand and unmatched moral character. His unselfishness, his patience, his love of justice, all his attributes combine to make him the embodiment of the ideal of a citizen, without fear and without reproach, pure of thought and speech, never irreverent."

"More than half a century has passed since the war, and after the peace of reconstruction, in submitting to the great changes wrought by war and performing of duty in restoring your section to peace and harmony, you have the altered conditions you have illustrated your good citizenship, and, in your every act, declared your loyalty to the Union. None more prompt in daring that the Southern soldier, nor officers braver of a better than those who created the soldiers to the Southern Confederacy. And now, united, you present yourselves a power to the world, commanding, as never before, an awful respect from all the nations of the earth."

"As to your sons, and others of your beloved, whom you sent to us across an expanse of three thousand miles, I saw always a same contempt of danger, the same fear, the same native courage which gave their visage a radiance that instinctive faith in the destiny of France, that love and respect for truth, for justice, that honesty brought to the accomplishment of duty. They, and we, should feel pride in seeing all the generous nations who fought us for liberty enthusiastically celebrate the intelligent courage, the firm tranquility and the manly resolution of France and America."

WOMEN STUDENTS IN GERMANY TURN TO TECHNICAL COURSES

HEIDELBERG, June 3.—The number of women students in the German universities has more than doubled in the last ten years. Recent statistics show that in 1914 there were 4,100 women students, while today there are 8,351.

Medical jurisprudence and studies designed to fit the students to become teachers are the most popular classes, notwithstanding the fact that these professions already are very much over-crowded.

German women this year have taken a greater interest in agricultural subjects than at any other time, and all of the universities report enlarged classes also in architecture, engineering, and other technical studies.

DAUGHTY WILL NOT TESTIFY AT PROBE NOW ON

Notifies Committee He Won't Be Witness and Withdraws Counsel

(By The Associated Press.)

WASHINGTON, June 4.—Former Attorney-General Daugherty today notified the Senate committee which has had his official conduct under investigation nearly for months that he would neither testify as a witness nor be represented further by counsel in its proceedings.

The committee had asked the former attorney general to take the witness stand on Friday as the last witness before a preliminary report is submitted to the Senate. No formal subpoena had been issued for him, however, and the committee members have indicated that they would take no steps to compel his appearance.

Paul Howland, attorney for Mr. Daugherty, read the committee a statement by his client declaring that "certain members of the committee" had made a desperate attempt to "blacken" his reputation and denying that he had "profited in any illegal, corrupt or unethical way" from his tenure of office.

Mr. Daugherty's statement also declared the federal court in Ohio, in the litigation between the committee and Mr. S. Daugherty, had held the committee to be engaged in "an illegal proceeding." He therefore gave notice that his lawyers would withdraw.

Chairman Brookhart declared the statement was a "reflection" on the committee and said that he intended to reply before letting matters go further.

"We have proved the existence of a criminal conspiracy in Dr. Daugherty's household," Senator Brookhart said. "We have proved that the tax returns of Mr. Daugherty when he took office, showed he had no money but that before he left office he had \$75,000 on deposit in his brother's bank."

The chairman added that under the circumstances he would ask the committee to proceed with its plan of making a partial report and then adjourn "some time." It is a part of the plan to resume sessions, however, at some date late in the summer.

Chairman Brookhart also referred to the indictment of Senator Wheeler, the committee prosecutor as a "frame-up" and said Mr. Daugherty had sought to attack others instead of defending himself.

Senator Moses, Republican, New Hampshire, said he wanted to express his opinion of the chairman and Mr. Howland with George E. Chamberlain, his assistant, then left the committee room.

M'ADOO LEADING UNDERWOOD IN F. L. A. PRIMARY

Bryan Running Good Race For Delegate to Democratic Convention

(By The Associated Press.)

JACKSONVILLE, Fla., June 4.—William G. McAdoo was leading Senator Oscar Underwood of Alabama, for the Democratic nomination as president by almost two to one with returns from only about 200 widely scattered precincts reporting results of the state wide Democratic primary in Florida yesterday.

John W. Martin, candidate for nomination for governor, had a plurality of 1,720 votes when officially today began the tedious task of tallying the votes. Ballots checked prior to the election showed Martin 10,411 votes against 5,821 for Frank E. Jennings and 7,133 for Sidney J. Catts, his two nearest opponents. Worth W. Trammell had received more than 600 and Charles H. Spence 200.

William Jennings Bryan apparently is running a good race for delegate to the Democratic national convention at Niagara Falls, given the little attention he has far been given to the votes for delegates to the convention, so anxious were the precinct officials to clear up the race for the governorship and presidential preference.

Eugene Matthews, incumbent, on the basis of meagre returns tabulated, was in the lead for state railroad commissioner. W. S. Cawthon, led H. Riley for state superintendent of public instruction and Clifford Foster was ahead for the post of adjutant general.

Usually long tickets slowed down the counting considerably.

Clem J. Walker to Be Buried Thursday

Funeral services for Clem J. Walker, who died last night at Edmunds Hospital will be conducted at ten o'clock on Thursday morning from the Mott Memorial Baptist church with which he had so long been associated. Rev. C. J. D. Parker will conduct the services and the interment will be made in Leeson cemetery.

Mr. Walker died after a protracted illness which failed to yield to treatment. Not long ago he went to Richmond and entered Stuart Circle hospital for an operation returning to Danville here in serious condition. He had gradually lost strength since that time.

Mr. Walker was 62 years of age and a native of Halifax county coming to Danville as a young man and having lived here continuously since. He was first married to Miss Ella Kent of Halifax who died many years ago. Later, in 1912 he was married to Miss Nell Dyer of this city who survives him with a daughter by his first wife, Mrs. Frank Puryear of South Boston.

Deceased was one of the original members of the Mott Memorial Baptist church congregation holding his membership there for thirty-five years. He sang in the choir for eighteen years and was unusually faithful in his devotion to his church rarely missing Sunday services nor those of mid-week. He lived in North Danville and thirty one years of his life were spent in the employ of I. Rosenstock where he established a name for integrity. Mr. Walker was a member of the local Oddfellows lodge.

FOUR FORMOSAN GIRLS SEEK DEATH IN SUICIDE PACT

TAIHOKE, Formosa, June 4.—A suicide pact among four young girls of one of the aboriginal Formosan tribes in the interior of this island, resulting in the death of two of the covenanters, has brought to light an invasion of modern ideas even into that fastness of savage life.

The four girls, between 15 and 18 years old, all had had modern education in schools established by the Japanese. They had heard something about the idea of women to decide for themselves in regard to marriage, an entirely new idea in the community in which they were reared. When the parents of one tried to force her into an unwelcome marriage, the three girls decided to die together. They tried hanging. Two succeeded, but the trees selected by the others broke under their weight and they lived.

FORMATION OF WAR MEMORIAL COMMISSION

(By The Associated Press.)

RICHMOND, Va., June 2.—Formation of the war memorial commission provided for by act of the 1934 general assembly was completed yesterday when Governor Trinkle announced the appointment of the three men who will work with members of the legislature on the body. Adjutant General William Wilson Sale, John J. Wicker, Jr., state commander of the American Legion, and Chas. E. Dyer, of Jewell Ridge, Tidewater county, vice commander of the county, were named by the governor's three appointees.

FLER'S CHECKERBERRY CHEWING GUM

BUFFALO HOTEL

Lithia Springs

Located in the most delightful section of Buffalo Hills in Mecklenburg county, 500 feet above sea level, 15-acre lake with swimming, fishing and recreation, surrounded by an air of country hospitality, will be pleased and benefited, while those who suffer from kidney, bladder or uric acid troubles will be blessed by the curative effects of these famous waters. Open June 14th, under the management of Mr. Geo. W. Traylor, at one time with the Hotel Chamberlain and who now conducts a select resort in Bermuda.

The orchestra this season will consist of four graduates of the Penobscot Institute. Dancing every night, 15-acre lake with swimming, fishing, tennis, golf, gift shop, circulating library, massage and beauty specialist. Good automobile road, write for rates and further particulars.

In the Reign of Brown, the First

Three stages in the ascent of Jamie Brown, ex-miner, to the position of king's proxy in Scotland for a nine-day reign. Above Mr. and Mrs. Brown in their humble home at Annbank, England, before their departure for Edinburgh, Scotland, to represent the king of England as head of the court. The center picture is the first to reach this country showing the Browns moving in their (yes, it's a Ford) and waving a cordial farewell to humble neighbors. While, below, is Holyrood Castle to which the one-time miner went to play king.

Patterson Takes New Office of Asso.

RALEIGH, N. C., June 3.—Richard M. Patterson, hitherto manager of the leaf department of the Tobacco Growers' Cooperative Association, was today appointed to the newly created position of general manager of the association. Mr. Patterson, who was formerly manager of the leaf department of the American Tobacco Company, has clearly demonstrated his ability as a tobacco merchant and an executive, having successfully sold a great majority of the 243 million pounds of tobacco received by the co-operative warehouse since he assumed command of its sales department. The board of directors of the tobacco association was unanimous in its choice of Mr. Patterson, and by his assumption of duties as general manager it is felt that the department of the association will be co-ordinated in a manner which will lead to even greater efficiency in the organization of 95,000 farmers for the orderly marketing of tobacco.

Patterson was born in Rockingham county, North Carolina, and has risen through the successive stages of the tobacco trade until he left his position as head of the leaf department of the American Tobacco Company to handle more tobacco in a single year than is purchased by even the largest of the world's tobacco manufacturers. Mr. Patterson will continue to direct the affairs of the sales department of the association, handling the bright, dark and sun-dried tobaccos delivered by its membership, which at present amounts to 180,000,000 pounds annually.

Oliver J. Sands, whose guidance of the association in its first two years of operation has been of great value, has brought it increasing success, though insisting upon being relieved from the executive management of the association will continue to guide the financial policies of the association as chairman of the board of finance. Mr. Sands, who was chairman of the commission sent to Europe by the 260,000 members of the three largest tobacco co-operatives, has just returned from overseas and today gave an encouraging report of the commission's work in Europe, where new and enlarged markets for the tobacco of the American farmers of the co-operative associations will result from the 260,000 commission agents in Europe.

In Great Britain the demand for the standard grade of the co-operative weed seems certain to increase, as a result of the trip of the commission to trade centers of England, Scotland and France. Mr. Sands said the commission received the commission with every courtesy and consideration, after the Americans pointed out that the organization of the tobacco in this country to sell his product by standard grades and in large quantities was a movement for the benefit of the entire American people as well as manufacturers and consumers.

The directors of the tobacco association in today's meeting of the newly elected board learned of assurances of co-operation by the French minister of finance and the minister of commerce who direct the affairs of the French government monopoly and will buy large quantities of tobacco from the co-operative associations. Mr. Sands said that every encouragement to the commission is located in the fact that the European countries which sell through government monopolies, and the latest cable to reach the Richmond officers of the tobacco association assures very favorable connections to the association in Germany.

DAIRY MEETING TO CLOSE NEXT FRIDAY

(By The Associated Press.)
RICHMOND, Va., June 3.—The annual meeting will occupy attention tomorrow of delegates attending the thirty ninth convention of the Holstein-Friesian Association, which is now in session here. Thursday and Friday will be devoted to the fifth national cooperative sale of Holstein cattle, which will conclude the six day meeting.

Ex-Governor Frank O. Lowden, of Illinois will deliver the address of the president while the chief interest on the program of the annual meeting. The board of directors remained in session practically all day today planning the program and making arrangements which it is hoped will expedite the meeting tomorrow, the most important of the convention. During the day delegates visited the state fair grounds where cattle, brought here for exhibition and for the annual sale, are housed, and went on an automobile tour of the city. Tonight they enjoyed an entertainment, "dairy rally" which was featured by an address delivered by Dr. C. W. Larson, chief dairy division, United States department of agriculture. Music and moving pictures also were on the program.

WOMAN USES TRETTSES TO HANG HERSELF

(Copyright, 1924, by Chicago Tribune.)
ZURICH, June 3.—Mrs. Catherine Taintor, of California, committed suicide in the jail here by cutting off her long and abundant tresses and making them into a cord tying them together with bits of handkerchiefs and hanging herself to the bars of the cell. The body was discovered at breakfast. After serving prison terms in Paris, Brussels, and Munich for obtaining money under false pretenses, Mrs. Taintor came to Zurich a few months ago posing as a wealthy woman. She purchased clothes and jewelry and gave lavish entertainments for the burgomaster, college professors, and leading lights of Switzerland, including the diplomatic corps attending.

DISEASE GERMS FLOURISH IN GERMAN PAPER MONEY

BERLIN, June 3.—Disease germs are much more prevalent among post-war bank notes in Germany in use before the war. Investigators have found, because of the fact that the currency is handled much more frequently than prior to 1914. This is because there is less of it. Investigators in Berlin found that "diseased" money is virtually innocuous, owing to the self-disinfecting action of the metal itself, and because its small, smooth surface prevents development of the germs. The dirtiest piece of copper or silver is, from the standpoint of a bacteriologist, better than newly-issued paper money," says he report.

Children Cry for "Castoria"

Especially Prepared for Infants and Children of All Ages

mother: Fletcher's Castoria has been in use for over 30 years and is the favorite of children of Constipation, Indigestion, Wind Colic and Diarrhea; it cures Feverishness arising therefrom, and by regulating the stomach and bowels, aids the assimilation of food, giving natural, deep, sweet sleep.

Latest photo of Russell Thaw, son of Evelyn Nesbit and Harry K. Thaw. The boy now wears trousers and is a member of the editorial staff of his school paper at Atlantic City.

Campaign Warms As Election Nears

As the date for the election of mayor and nine councilmen nears, the candidates are redoubting their activities and are being aided by many friends in their efforts to appeal to the voters. With two candidates for the mayoralty—Captain Harry Wooding, incumbent, and Charles K. Carter, a well known citizen now engaged successfully in the automobile business—and two full tickets for the Council, one known as the Citizens' ticket and the other put forward by an organization known as the Good Government Club, politics is the theme of almost every accidentally assembled street corner group. Friends of both aspirants for the mayoralty have been busy at work, neglecting no opportunity to win a vote, yet the canvass is being quietly conducted, with no personal attacks and nothing resembling what is commonly called mudslinging.

The prospective vote is hardly expected to exceed 2,000, but may reach 2,500, since it is a general election in which Republicans as well as Democrats, and both white and colored men and women qualified to vote and duly registered, may participate. Candidates for the Council are doing little personal work of an active character individually, but both tickets are appealing to the voters through letters, circulars and newspaper publicity. As the date grows nearer greater activity is anticipated, both by the mayoralty and the councilmanic candidates.

Overshadowing both contests for municipal office, perhaps, is the campaign for and against the authorization of municipal bond issues—one of \$350,000 for school buildings and equipment, another for \$100,000 for the payment of streets not specified in the ballot, and still another of \$100,000 for construction of sewers in suburban sections. The school bond issue and the sewer bond issue proposals both failed of the required majority of the total qualified freehold vote in an election last year, but active and earnest efforts are being made by the advocates of school bonds. Under the law as it now stands, such a bond issue must secure the affirmative vote of two-thirds majority of the qualified voters participating in the election, which must also include a majority of all qualified voters owning real estate.

If all three of the proposed bond issues were authorized by the voters in the manner required by law, it would subject the city to an increased interest charge of \$27,500, which would be deducted from the city's current general revenue. Opponents of the bond issue for schools are basing their disapproval on the contention that the amount voted is excessive to meet the immediate needs of the local public free schools, while advocates insist that such a sum is required to meet adequately the congested condition in the schools. Those who do not vote at all on one or two or all the bond proposals nevertheless vote against those proposals as effectually as if they voted disapproval in marking their ballots. The influence of many local organizations is being enlisted in favor of the school bond proposal, particularly.

NATIONS STANDARD BEARER

(By The Associated Press.)
COLUMBUS, O., June 3.—Judge Gilbert O. Nations, of Washington, was selected standard bearer of the American party by the national convention of the organization here today and Congressman Charles H. Randall, of Los Angeles, was named as his running mate.

Only two men each for the presidency and the vice-presidency were placed on the ballot. Governor Pinchot, of Pennsylvania, running against Nations and Congressman William D. Upshaw, of Atlanta, against Randall. The vote stood: Nations 26 and Pinchot 7, Randall 15 and Upshaw 100.

The New Freely-Lathering Cuticura Shaving Stick For Tender Faces
EMOLLIENT MEDICINAL ANTISEPTIC

Charles H. Fletcher

Must Go Fast to Suit McAdoo

By NEA Service

LOS ANGELES, June 4.—Railroad travel, the bane of many politicians' lives, is genuine pleasure to William Gibbs McAdoo.

It gives him a sense of physically spanning the land. It brings him new and informal contacts with many different classes of people.

The social instinct is highly active in him. He is an excellent smoking room companion.

Movement and speed are essential in his dynamic nature. He wants to ride fast trains. He walks fast and rides in fast automobiles.

And he works swiftly. He has an enormous capacity for it both as a lawyer and on his campaigning trips.

When not particularly active, politically or legally, he likes to stride a cow-pony for a good gallop. And fishing—in trout streams, especially—also is a relaxed diversion with him.

Dancing, too, is one of his favorite pastimes. He likes to step it off to stirring music.

His typical day is divided between his family and his office. His home life is quiet and unpretentious with infrequent social relaxations, except neighborly gatherings.

He gets plenty of sleep and keeps himself in trim through systematic recreation. At 60, his health is perfect. So are his teeth.

McAdoo spends at least two hours daily handling his personal correspondence. That alone gives some idea of the hundreds of friends he has.

For two years he has worn the same fedora hat.

"It's the one I cast into the ring," he says. "So I am going to wear it to the Democratic convention even if it swells to death in New York."

Any hour of the day or any activity he is engaged in always reveals McAdoo an assertive, highgear man who thinks and talks rapidly, entirely free of pose or provincial bias and always easy to approach.

WARNS YOUNG GIRLS AGAINST BROADWAY

By EDWARD DOHERTY
NEW YORK, June 3.—"Tell the girls to stay away from Broadway. Tell them there's only heart break there, and shame—and bitter pain." Imogene Wilson, who has been called the most beautiful girl on Broadway, sent forth this message tonight as she lay in her home, slowly recovering from the beating given her a week ago by Frank Tinney, comedian, the man she still loves.

"To think what I might have been!" she said. "And to realize what has been made of me." She had been reading letters, missives of hate and loathing, and condemnation from women, letters telling her she should be hanged for breaking up the Tinney home, letters advising her to kill herself, letters from men telling her they have both the means and the inclination to aid her.

Miss Wilson suffered another slight hemorrhage this morning, but she is in much better condition than she was on Thursday when she appeared before Magistrate Goodman in West Side Court to prosecute the comedian.

It is believed she will have recovered by Friday, the day set for the hearing. She is going through with it, she says, and denies reports of a settlement out of court and a lawyer mediator.

Her telephone rings repeatedly. Mrs. A. C. Rondeau, Imogene's sister, answers it. Threats, curses, denunciations, offers of aid, pleas for forgiveness, every time the telephone rings Imogene, still in a highly nervous state, screams.

Shortly after last midnight someone rattled the knob on the front door and the shock of belief that was about to be kidnapped. She shouted hysterically into the phone. Meantime Tinney's attorneys, Kender and Goldstein, are looking for him. They haven't seen him since he left town Thursday noon, and if they do not find him soon they will withdraw as his counsel, they declare.

RUSSIAN STAGE PRAISED BY GERMAN TRAGEDIAN

BERLIN, June 3.—Alexander Moissi, the German tragedian who has just returned here after having played an engagement in Moscow, finds conditions in Russia are much more favorable to art than in western Europe.

The actor says Russian artists live for art's sake, while in the western theatres business interests control the theatre. Moissi was impressed by the decency of productions in Russia, where he says unclad men and erotic plays do not dominate the stage as they do in Paris, Vienna, London and Berlin.

(By The Associated Press.)
COLUMBUS, O., June 3.—Judge Gilbert O. Nations, of Washington, was selected standard bearer of the American party by the national convention of the organization here today and Congressman Charles H. Randall, of Los Angeles, was named as his running mate.

Only two men each for the presidency and the vice-presidency were placed on the ballot. Governor Pinchot, of Pennsylvania, running against Nations and Congressman William D. Upshaw, of Atlanta, against Randall. The vote stood: Nations 26 and Pinchot 7, Randall 15 and Upshaw 100.

PEONY GROWERS PLAN DISPLAY OF 1,000,000 BLOOMS AT SHOW

DES MOINES, Ia., June 3.—A million peony blooms will be on exhibition here at the National Peony Show June 14-16. It is stated by F. T. Meredith, former secretary of agriculture, who is general chairman of the show, Mr. Meredith said that it will be the greatest exhibition of a single flower ever held. More than 250 varieties will be on display.

Exhibitors will be here from all parts of the United States and Canada. One Massachusetts grower will bring a carload to peonies across the country for the event. Amateurs as well as commercial growers will exhibit.

SHEANDOAR EXPECTED TO REACH FIELD THIS A. M.

(By The Associated Press.)
LAKEHURST, N. J., June 4.—A radio message from the Shenandoah, completing a thousand cruise, stated that it expected to reach the field about 2 o'clock, eastern standard time, this morning. At that time flood lights illuminated the field and the ground crew was in readiness for the arrival of the air giant.

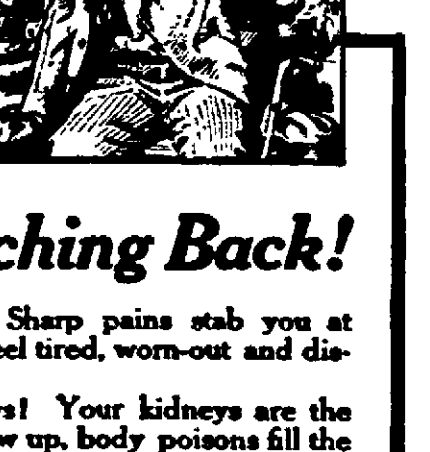

Corns

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting. Then, shortly you lift it right off with fingers.

Your druggist sells a tiny bottle of "Freezone" for a few cents sufficient to remove every hard corn, soft corn, corn between the toes, and the foot calluses without soreness or irritation.—adv.

Help That Aching Back!
BACK lame and achy? Sharp pains stab you at every sudden move? Feel tired, worn-out and discouraged?

Then look to your kidneys! Your kidneys are the blood-filters. When they slow up, body poisons fill the blood and upset the whole system. Backache is apt to follow, with stabbing pains, headaches, dizziness and kidney irregularities. One feels constantly tired, nervous and dispirited.

Don't risk neglect! Use Doan's Pills. Doan's have helped thousands. They should help you. Ask your neighbor!

Here Is Danville Proof:

J. L. Vernon, prop. of furniture repair establishment 729 Holbrook Ave., says: "I was bothered with a dull ache in the small of my back. My kidneys acted irregularly and the passages of the kidney secretions caused a burning sensation. One box of Doan's Pills corrected all the trouble and I felt better in every way. My kidneys acted naturally again and I was cured of the attack."

Stimulant Diuretic to the Kidneys
At all druggists, 60c a box. Form-McNeil Co., Mfg. Company, Buffalo, N. Y.

Danville Lads to Go to Greenbrier

Camp Greenbrier, near Alderson, W. Va., will again be opened and maintained this summer for its fourth consecutive year, as a delightful place and environment for summer outing by young men of this city. Captain J. C. Carter, of the Danville Military Institute faculty will be in charge of the camp, which is for boys and youths between the ages of 16 and 18 years. The camp is on or near the main line of the Chesapeake and Ohio railroad and is just 20 miles west of the famous Greenbrier. While Sulphur springs, known to many of the older generation as "the old white," the young campers will be admitted only through personal invitation.

The following boys from Danville will go to Camp Greenbrier: J. G. Watson, A. B. Simpson, A. C. Conway, Jr., Gray Gravelly, W. E. J. McManis, Douglas Sager, W. Sager, Guy Hogg, Bascom Jordan, Holland Robinson, Rucker McFall, W. T. Gravelly, Jr., and from Critz, Va., H. W. Reynolds, W. Reynolds; from Lynchburg, Va., J. Mosby; from Sweetbriar, Va., H. S. Worthington, Jr., and from St. Petersburg, Fla., Joseph Conway. Of this group, Watson, Conway, G. Gravelly, McManis, H. W. Reynolds and Worthington went to the camp last summer.

The season at the camp is from June 29th to August 23. The Danville party will leave for camp on Saturday morning June 28. Among the sports and diversions to be enjoyed are canoeing, swimming, fishing, baseball, tennis and rifle practice. A small calibre range is available and a government 30 calibre rifle range. A band and orchestra are provided at the camp and dances will be enjoyed. Radio equipment is also available, and sending and receiving will be taught those desiring the instruction. Shows, including local talent acting and movies are provided; trap-shooting, volley ball, military training and any grade or high school class work will be provided for those desiring it. Three canoe trips—one 40-mile trip of two days over rapids, and smooth water down the beautiful Greenbrier river—are attractions to many. Good sleeping quarters in well-tenanted floors and protected from flies and fine "grub" are among the living attractions.

The Danville bunch is to have a ball team in the "minor league" and will be known as the Piedmonts. Naturally the boys are impatient for the 28th of June to show up and will be busy with plans and preparations for their outing. Every precaution is promised for the safety of the campers, and the camp itself will be a school of character and manliness.

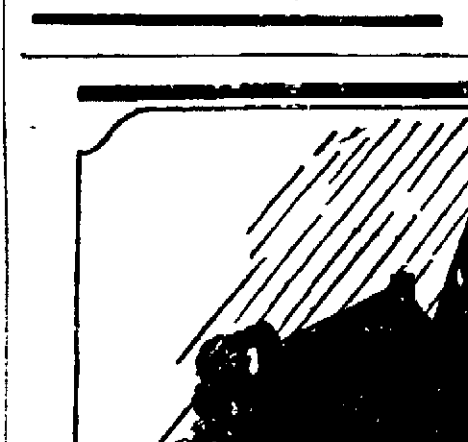

PORTUGAL FIGHTS HIGH COSTS

LISBON, June 3.—The cost of living has risen from 10 to 15 per cent since the first of the year, owing chiefly to the activities of speculators and dealers. The government is taking steps to combat further advances and has opened stores in various parts of Lisbon.

Bind-Resinol

over that cut and see how it heals! Little cuts and scratches are aggravating and painful, and they can even become dangerous if infected. Prevent such a condition by cleansing the injured spot well and then applying RESINOL OINTMENT. Its gentle antiseptic balsams soothe while they heal. A physician's prescription and recommended widely—it is no longer an experiment to thousands who have used it successfully for various skin affections. At all druggists.

NECKS FEATURE IN FASHION THIS YEAR

CHICAGO, June 3.—Dame fashion has put out her latest bulletin board and with one wave of her hand has crisscrossed "ankles" and substituted "necks" as the feature most likely to capture the masculine eye this season. This is in line with recent instructions to editors of college publications to cease specializing in "legs" on the cover pages and in the illustrations.

Getting up to "necks," however, they will be conspicuous this season because they will be covered. The fashionable woman will wear left-handed high stocks of chiffon, georgette and crepes and these will fasten under the left ear in a huge, coquettish bow, or with one large red chiffon rose.

A huge bow or rose on the sleeveless left wrist and one bow or rose on the slipper is considered the tadpole teddies this season. Soft swathing materials of "desert sand" or "oasis green," decidedly Arable in cut and fit, will be the proper thing. Modistes say swaths, left-handed bows and georgettes are more deadly than "ankles."

HENLEY DETRICK WILL SPEAK HERE TONIGHT

W. Henley Detrick, who has been studying in New York for two years with a view to better equipment for his profession as an architect, has returned to Danville with his wife to resume his residence. Mr. Detrick will speak this evening at the mid-week service at the First Baptist church on "Church Life and Church Architecture" and will doubtless be heard by many of his friends in his home city.

RANDOLPH-MACON STUDENTS LEAVE FOR HOME

LYNCHBURG, Va. June 3.—Students of Randolph-Macon Women's College were leaving for their homes tonight after completing commencement exercises this morning. One hundred and eleven diplomas were presented and honors were announced by President D. R. Anderson.

EDWIN HUGHES IS A GRADUATE IN MEDICINE

Invitations have been received in this city to the commencement of the Medical College of Virginia at Richmond, one of the best known medical colleges in the country. Among those graduating who will receive their M. D. degree at the commencement is S. Edwin Hughes, son of Dr. and Mrs. S. E. Hughes, of this city and himself widely esteemed in his home city. He had prepared himself for the study of medicine by a liberal cultural course and will enter upon his career with fine promise of success.

Soap's Colyum

DRAKES BRANCH, June 4.—(Grapevine Wireline).—As Mr. Fick-

lender argued in his lay sermon last

Sunday afternoon, a white lie is often

justified. He told the truth, the whole truth

and nothing but the truth, all the time, this

world indeed! Who would dare tell a doing

mother that her baby is anything but sweet and

lovely, altho the kid may look like Happy

Bookings? The Good Book says: "All men

are liars," but this is a lie, but this is a lie,

written long before the enfranchisement

of women and the advent of the Volstead

Act. Up at the drug store this morning a

grouchy Goo Goo handed us this maxim, printed on a

card: "I'm not what I am, I'm what I

feel, but go ahead, I'm listening." Coming back to

our text, that a white lie is often justifiable, if

girls were to say what they think, we'd

hear something like this: "Why of course I

don't want to stay at home this evening, George.

Doesn't it ever occur to you to buy any

theatre tickets?" "Well, you are without a

doubt the worst dancer I've had this evening.

What school of dancing do you follow?"

"My dear girl, straighten that head

dress of yours, it's been crooked all evening

and it looks terrible." "This candy you brought

is rather stale, Dick. Next time try Mrs.

Snyder's, even though it costs a little more."

"Now, Alice, you know you have no idea of

ever coming over to see me. You've been coming

for the last two years." "Say, Casper, please ring

off. I don't know why you insist on these

endless telephone conversations every evening."

"Edgar, please don't sing again. I hate to

tell you but I guess I must. You haven't got a

voice." "Speaking of bathing in famous

springs, said the tramp to the tourist, I bathed

in the spring of '88." "Here's an inventor

saying that mouse traps can be made from

old newspapers! Some newspapers would

probably make better mousetraps than others."

Quoting from the last "Spasm": "All was

quiet along the Potomac (and the Dan); not a

mouse stirred! Not a leaf stirred, as a mouse

stirred! Not a leaf stirred, as a mouse stirred!

"We may have our differences as to

councilmen, but everybody is in favor of

Cherry Pie!"

It was three o'clock in the morning.

A man stealthily crawled up on a porch and

opened the door. "Damn—hic—hope—hic—the

old—hen's—alive!" (He sneezed.) "John, dear, is

that you?" (Pardon me for his name was Tom.)

"I—hic—guess—hic—I'm—in—the wrong—hic—house."

(But he wasn't.)

Girls will be girls even though they

try to look like boys.

Patron: Waiter, there is sand in this

bread. Waiter: Yes, sir. That's to keep the

butter from sliding off.

Fortcoming events cast their shadows

before. Coolidge was sworn into office by the

light of an old lamp.

Hoboes are thick, says a headline in the

Roanoke World-News. Most of them hereabouts

are lanky, comments Officer Thornton.

From the comparative size of the coat

and the bill, I should say that you got them

mixed. You should have sent the coal by mail

and the bill by freight.

The cost of living remains the same—

all you pay.

Gladys: Father, I wish you would

not leave my millinery bills lying around on

the table just when Arthur is on the verge of

proposing.

Valor, in the opinion of Abe, is the quality

that enables a man to lay down a lone nickel

when the check girl surrenders his hat.

The Modern Hudak. He killed the noble

Mudak. Of the skin he made him mittens.

Made them with the fur side inside. Made them

with the skin side outside. He to get the warm

side inside. Put the inside skin outside. He to

get the cold side outside. Put the warm side

outside. Put the warm side outside. Put the

warm side outside. Put the warm side outside.

Why he turned them inside-out.

No woman ever takes another woman's

advice about frocks.

Naturally. You don't ask the enemy how to

win the war.

Your friends do not need explanations

and your enemies will not believe them.

On the way to the hospital yesterday, Junius

informs us, my father sang, "On the road to

meat a leg." Ant when he comes back, we hope

he'll be shouting, "Hip, Hip, Hurray!"

If you want your dreams to come true, don't

over-sleep.

Jim (humbly): Where'd you get your

doughnut? Tommy: From my private filling

station, me keeps for me.

Sammy stopped a street car by standing on

the track. Why gave his system a quit, a jar,

Sam's sisters now wear black.

A certain Northside girl has been heard to

bewail the lot of the single girl. When she is

alone she is like a single man. The other girls

are like a married man. When she is alone she is

like a married man. When she is alone she is

like a married man. When she is alone she is

like a married man. When she is alone she is

like a married man. When she is alone she is

How to Torture Your Wife

The LAND OF FORGOTTEN MEN

by Edison Marshall

Released by NEA Service, Inc. Copyright 1923 by Little, Brown & Co.

SYNOPSIS

Peter Newhall, Augusta, Ga., who engages Ivan Ishmin, Russian violinist, in a quarrel during a motorboat

ride, threatens to throw Paul Sarichef, Ishmin's secretary, overboard for

interfering. He awakens from a drunken stupor to be told by Ishmin he

threw Sarichef overboard during the night. Ishmin urges him to flee to

South America, but unbeknown to his wife, Dorothy, he flees to Alaska,

where he is known as the Remittance Man.

He joins Big Hris Larson in response to a distress signal at sea, and

forces his sea jacket upon him. The broken party forced the Dolly Bettis

into a little settlement in the Shumagin Islands; and when the ship had

fastened to the dock for repairs Pete found, to his consternation, that

he was in Squaw Harbor, Alaska. He had been told by a fellow south-

east that he had always guessed. His real name was Newhall—something like

that—and he'd got in a drunken brawl and killed a man—was up here hid-

ing. He was almost out to sea by the crane and the identified him by

some papers found in his coat.

It seemed beyond belief to Pete that these men would not hear the

drumlike beat of his heart. "Did you find most of the bodies?" he asked,

when at last he could trust himself to speak.

"About half of both crews. The Remittance Man, by the way, turned

Present Council Achievements

As there is so much talk these days in regard to the achievements of the present Council, not a single one should be overlooked:

FIRST, the Council is due full credit (and it should be broadcast) that farm land over four miles of the city limits of Danville is selling at more than \$450.00 per acre. It must be taken into consideration that this is no one-man opinion of the value of the said land, for it was purchased with the approval of a body of nine citizens whom the Good Government Club considers supreme in their handling of business affairs. The Council, as this body is known, recently purchased 5 acres of land lying over four miles from the city for the sum of \$25,000.00. Purchasing this cemetery site such a distance from the city, should help cause a boom for the automobile dealers, for people, as a rule, will not walk so far to bury their dead or to place flowers on their loved ones' graves.

SECOND, for placing the Almshouse in a very inaccessible location where a separate pumping station will have to be installed to furnish water for this institution. The city will also have to extend its power line considerably in order to furnish the necessary current, for lighting, etc. It will also mean that the almshouse will not be able to enjoy the protection of the city fire department.

THIRD, it has not been explained, altho' we are confident that the City Council is entitled to the credit why Craghead street will get the kind of pavement called for in the contract which has been let. It has been the general impression for years that Craghead street, which has the heaviest hauling of any of our streets, and is a main thoroughfare for business, would be paved with DURAX BLOCK; yet the contract has been let for an asphalt pavement, while Bridge street, which is travelled much less and is not as important a thoroughfare, altho' Dibrell Bros. (A. B. Carrington, Pres.) office and the Gardner Motor Co., are located on this street, is paved with DURAX BLOCK, which is more expensive.

It is not known why the **WHITE WAY** will be put down on Craghead street, instead of Bridge, as the City Council undoubtedly thinks Bridge street is more traveled, judging from the type of pavement it has received.

FOURTH, Danville, stands alone, due to the Council's action, in refusing to accept a **FREE PUBLIC LIBRARY** equipment and a large collection of books. It is the general belief of those in close touch with the situation, that Danville will again be made this generous offer if there is a decided change in the personnel of the present council.

FIFTH, the city police force has been increased only by increasing auto-license tags 400 per cent. or five times as much.

SIXTH, the Juvenile and Domestic Relations Court established to comply with the State requirements.

SEVENTH, purchase and abandon city farm, with many idle prisoners loitering in city jail, while State highway desires to employ all prisoners with sixty days or more. This means financial loss to city and unhealthy prisoners, from lack of exercise.

WHAT THE COUNCIL TRIED TO ACCOMPLISH

FIRST, to deny the citizens of Danville the God-given freedom of democracy, the right to elect its highest salaried officials. Monarchs and dynasties have fallen as result of their rulers not being responsible to the people.

SECOND, to give to the Council the power to issue four hundred thousand dollars' worth of bonds annually for the public utilities, without consulting the citizens who will have to pay back every cent borrowed, plus interest.

THIRD, to give the Council the power to issue bonds to the amount of eighteen per cent. of the assessed value of the city's real estate (all the State law would allow the citizens themselves to have issued,) without consulting the people and within a few hours.

FOURTH, to reduce the amount that can be assessed for school purposes from one dollar to seventy-five cents.

All of the above clearly show the citizens of Danville that the City Council does not consider that the people are capable of governing themselves.

Piedmont Games Rained Out; Double-Headers Today

THE NUT CRACKER

BY JOE WILLIAMS

It took Renault six rounds to flatten Wild Bill Hood, which shows what little respect he has for daylight saving time.

An opium ring has been flourishing in Boston and maybe that explains the dizzy performance of the Red Sox.

If the Olympic rugby matches develop many more fist fights Ireland may be expected to step in and accept the sport as its national game.

About the only derby Black Gold hasn't won so far is the brown one the fans handed Babe Ruth two years ago.

It is said that Benny Leonard takes himself quite seriously as an actor. Seriously, perhaps, but not quite.

Dr. Lasker met 29 chess players at once in Boston the other night. The amazing thing about this is that there are 29 people who play the game.

How to build up your Weight

TO be under weight often proves low fighting-power in the body. It often means you are minus nerve-power, minus red-cells in your blood, minus health, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become a plus.

That's why S.S.S., since 1895, has meant to thousands of underweight men and women a plus in their strength. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S.S.S. will build them.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood-Medicine

Mme. Adrienne Bolland, daring French aviatrix, who recently broke her own loop record of 98 loops by completing 212 loops in the sky.

GIANTS TAKE 6TH VICTORY IN 11 GAMES WITH DODGERS

(By The Associated Press.)
NEW YORK, June 3.—New York increased its season's successes over Brooklyn to nine victories in eleven games by winning both sections of a double header today, 9 to 2 and 3 to 2.

In the first game Nehf lasted nine innings for the first time this season, while New York knocked out the Dodgers in the first frame. Splendid support saved Bentley in the second game, which Jackson won by hitting a home run with Kelly on base.

First game:
Score: R H E
Brooklyn 000 002 00—2 10 1

RIXEY IN SUBURB FORM AND BOSTON LOSES

BOSTON, June 3.—Cincinnati bunched hits off Genewich in the second, fourth and fifth innings, knocked him out of the box and defeated Boston 5 to 1 today. Eppa Rixey pitched a beautiful ball throughout. He held Boston to 5 hits and did not give a base on balls. But for a wild throw by Fowler which allowed Stengel to score from second, Rixey would have had a shutout.

Score: R H E
Cincinnati 020 210 000—5 11 1
Boston 000 010 000—1 5 1
Rixey and Wingo; Genewich, Striker and O'Neill.

MITCHELL BURLS TWO-HIT GAME AGAINST CARDS

PHILADELPHIA, June 3.—Mitchell held St. Louis to two scratch hits today and Philadelphia shut out St. Louis 6 to 0. Bunched hits enabled the home team to score runs when needed while Sand's home run in the fifth added to the Phillies' total.

Score: R H E
Philadelphia 000 000 000—0 2 1
St. Louis 000 000 000—0 0 0
Haines, Sherdell and Gonzales; Neibergal, Mitchell and Wilson.

ALL HOLLYWOOD MARRIAGES ARE NOT UNHAPPY

BY FOREST WHITE
(Copyright, 1934, by The Bee.)
LOS ANGELES, Calif., June 2.—It's all wrong about Hollywood and the movies and that the motion picture people can't make their married stuff stick. It's true that quite a number of the marriages among members of the colony and between members of the colony and outsiders, have been flops, due to poor casting, but that is not a game, as any casting director will tell you. But to say there are not happily wedded couples in Hollywood—that is ridiculous. It is wrong, too, to assume that motion picture folk enter lightly into the state of matrimony. They have proved their sincerity. Many of them have tried and tried, again and again, and will just keep on trying until the end. If that isn't proof that they are sincere, what would you?

With so much sincerity there could not help be many married couples in Hollywood and a periodical devoted to the interests of the pictures and the picture people completing a survey just a few days ago, and was able to announce the discovery of five couples in the motion picture colony who had been married to each other—for at least three years. Both members of one sketch are picture actors; in another the wife acts in the pictures and the husband works on the practical end of the game. In the third the husband is an actor and the wife a sculptor; in the fourth the husband an actor and the wife a non-professional, and in the fifth the husband an actor in the pictures and the wife a former actress on the stage.

Of course there must be more—does more of happily married couples in the motion picture colony of Hollywood, but three years is a long time, and—well, that was the result of the survey as set down in brown and white.

The ink on the publication was hardly dry before Hollywood was rocked by a tremendous sensation—a big type sensation smeared all over the front pages of the newspapers. An automobile—yes, it was a big, high-powered car—with a determined, white-faced man at the wheel, had raced through the main street of Hollywood at appalling speed while a beautiful, struggling woman, held captive by the spread wings of the car, had appealed loudly and vainly for aid. It was a thrilling episode, a great mystery and the police were baffled. Now the police of Hollywood have stood for a great deal of late, including this baffled stuff, and so they set to work to run down the great mystery. After a call at the home of John C. Howard, the son of a millionaire manufacturer of salad dressing, and his wife, who was Ora Carow, motion picture star, before their marriage a little over a year ago, they announced that the mystery had been solved.

Mr. and Mrs. Howard were out for a drive, the police reported, and Mr. Howard wanted to go one way and Mrs. Howard the other. Mr. Howard won the argument about which way they were to go, but Mrs. Howard did not admit defeat when the racing car outdistanced pursuers.

Newspaper reporters called at the Howard home to ask a few questions. Why, I don't know what you are talking about, cooed Mrs. Howard. There must be some mistake. It could not have been us—we are the happiest married couple in Hollywood.

MOONRAKER HAS EASY VICTORY

(By The Associated Press.)
LATONIA, Ky., June 3.—Moonraker scored an easy victory in the inaugural handicap, the feature of the opening day of the Latonia meeting today, when he won easily by four open lengths from Audacious and Glide. The fact was worth \$5,700 to the winning owner.

Chilhowee, Hinkey and Barracuda also started.

FINALS AT SWEET BRIAR

(By The Associated Press.)
LYNCHBURG, Va., June 3.—Graduation exercises were held at Sweet Briar College this morning, diplomas being presented to fifty students. Carl E. Grammer, of Philadelphia, who made the graduating address, announced as chairman of the board, that plans were being prepared for two new buildings for the college. These additions he said were needed to accommodate the growing demands for rooms at Sweet Briar.

The class graduated today was the largest in its history.

TWO GAME AT H. P. TODAY

(Special to The Bee.)
HIGH POINT, June 4.—The Pointers and Bulls were yesterday prevented from playing the second game of the series by rain. Two games will be played today, weather permitting.

SPEED KING, JR.

Dooley Chlorana, who is making rapid strides toward the speed king's crown having done 126 miles an hour at the Amateur Athletic Association meet in Philadelphia.

NEUMBERG, Bavaria, June 3.—Johann Rechart, a coachman of this town, has been appointed public executioner for Bavaria. He is to be paid about \$2 for each head he cuts off, and will be given traveling expenses while away from home on official duty and \$2.50 daily for living expenses.

Now Joe Is Happy!

Joe Boyer has reached his goal. After repeated failures, the Detroit millionaire sportsman has won the annual Memorial Day classic on the Indianapolis Speedway. He averaged 98.24 miles an hour. Here he is coming in over the line—the victor.

The Sportsman

BY WALTER CAMP
(Copyright, 1924, by The Bee.)
NEW YORK, June 4.—Persons looking for something to criticize in the college athletic situation doubtless will seize on the address of Robert Fisher, the Harvard football coach, before the Harvard varsity club in which he was quoted as condemning the laxity of old Grady in boosting their Alma Mater to school boy athletes.

"Much valuable athletic material is thus lost that might otherwise might be attracted to the Crimson," Fisher was quoted as saying. He also is reported to have said that the difficulty of a student working his way through Harvard hampered the athletic development of the university, and that it was much more difficult for a boy to work his way through Harvard now than it was ten years ago.

The writer has not seen a verbatim copy of Fisher's address, but he is inclined to doubt very much whether Fisher had anything ulterior in mind in whatever remarks he made. The incident does, however, bring up the old question of how far a graduate is justified in going in recommending his own university to school boys, especially if they possess athletic ability.

No Games Played In Piedmont Yest'day

RALEIGH, N. C., June 3.—The second game of the series between Danville and Raleigh was postponed here today because of rain. Manager Murphy had "Lefty" Wilson warming up but the rain continued to fall and it was impossible to begin play.

The two teams will play a double header here tomorrow with "Lefty" Wilson as the probable choice of the Murphm for the first affair and either Harris, Shoat or McWhirter available for the second game.

JACKSON AND CARROLL EACH CUT ONE ADRIPT

GREENSBORO, June 3.—Greensboro and Winston-Salem were rained out here this afternoon. They will play two games tomorrow, the first starting at 2:30.

Manager Jackson, of the Twins, announced that Pullian would be released tomorrow and that Waldron, recently acquired from Rocky Mount, of the Virginia league, would be used at short. It is presumed that Manager Jackson will continue to play first base.

Manager Carroll today released Pitcher C. R. Wilson, better known around the circuit as "Lefty." He was the heater who went thirteen innings at Raleigh last week and held the Duncannans to eight hits and scoreless. It is understood that the gigantic hurler will return to his home in Mississippi.

NO GAME AT HIGH POINT

HIGH POINT, June 3.—The Pointers and Bulls were today prevented from playing the second game of the series by rain. It is not known if there will be two games played tomorrow or not.

NEW YORK, June 4.—Comic strip artists lead as trouper existence, as any group of men before the public.

If their product brings them fame, it is through its human humorous appeal. Then they must continue to be funny to hold your attention day in and day out.

It is very difficult to be snappy, for instance, when one's head is raging, or one's head is burning a fever that bakes all ideas before they can drip off a pen onto the drawing board.

Even artists are human and occasionally are "under the weather." Yet they must be bright and cheerful in their daily stint else you soon grow tired of their work.

When a strip begins to lose its color and laughter, at that period when the artist needs consolation and encouragement, he is buried beneath an avalanche of criticisms—and frequently never emerges the same.

Just imagine the lives of these funny artists who make you laugh every day. They have the little tragedies that seep into every life. Their mothers die and are buried; they have disturbing quarrels with their wives over trivial and insignificant matters; their children catch measles and fall down stairs—but every day they must draw their strip.

There is slight distinction between a rogue and a hero.

Detectives arriving at the scene of a big fire, saw a man running from the blaze, arrested him and placed him in jail. He was charged with arson. Many people died in the fire. It was some time before it proved his innocence, and that, instead of being an incendiary, he was the man who sent in the alarm.

Then he was proclaimed a hero. But the honor was a day late.

We often hear stories of the faithfulness of dogs.

This is the tale of a cat.

Its four-year-old master was burned to death in a fire.

Through the day and night, the cat paced restlessly on the curb before the burned building. It could not be comforted and would not eat.

Three days later, the cat was stretched dead in an alley—a victim of animals love and devotion.

It won't be long until the sizzling days of summer will be here. Here's a new way to keep cool.

One woman, detecting heat goes to the Bronx zoo on the warmest days. Standing before the glass case housing a giant boa constrictor, she gazes into the coils of the reptile until chills filter through her body.

Then she is cool for hours, she tells me.

—STEPHEN HANNAGAN.

PELTS TO NEW YORK

TOKYO, June 4.—Thirty million gray squirrel pelts from Siberian forests are on their way to market via Japanese ports. New York tanners and fur dealers will receive huge shipments of the pelts.

YESTERDAY'S RESULTS

- PIEDMONT LEAGUE**
All game postponed, rain.
- VIRGINIA LEAGUE**
All games postponed, rain.
- AMERICAN LEAGUE**

AMERICAN

ZACHARY PITCHES GREAT BALL AND DEFEATS CUBS
(By The Associated Press.)
DETROIT, June 3.—Zachary, Washington's veteran left-hander, held Detroit to two hits and the Senators defeated Detroit 11 to 1. Haney was the only Tiger to get to Zachary's delivery, hitting a single in the fifth and getting another in the eighth.

Score:
Washington 221 300 012—11 14 1
Detroit 100 000 000—1 2 1
Zachary and Ruel; Cole, Johnson and Woodall.

YANKEES GET HITS OPPORTUNITY AND WIN

CHICAGO, June 3.—New York bunched hits with Chicago's errors and defeated the latter 6 to 3 in the first game of the series here today. Penneck, backed with perfect support, pitched well, giving only one bad inning when the locals made all their runs.

Score:
New York 201 001 101—6 13 0
Chicago 000 000 030—3 8 2
Penneck and Schang; Thurston and Schalk.

RED SOX WIN SLUGGING CONTEST FROM BROWNS

ST. LOUIS, June 3.—Urban Shocker was batted from the box in the fourth inning and St. Louis dropped the first game of the series here today to Boston. The score was 3 to 7. The game finished in a succession of batting rallies by both teams which held the result in doubt. Boone, Harris and Sieler pounded home runs. Manager Lee Fohl of the Red Sox, former manager of the Browns, was presented with a diamond ring by friends prior to the opening game. Score:
Boston 102 100 031—8 14 1
St. Louis 010 002 202—7 13 1
Quinn, Ehmke, Murray, Fuhr, Ferguson and O'Neill; Shocker, Bayne, Pruett and Seaver.

For the Game's Sake

BY LAWRENCE PERRY
(Copyright, 1924, by The Bee.)
NEW YORK, June 4.—In winning the national collegiate polo championship, Princeton's strength and not Arizona's weakness was clearly indicated. Closer to the point of polo knowledge, the Tigers have been able in the course of the season to absorb the cardinal principles of the game which consist of perfect co-ordination and pertinacious following of the ball. Ponies are regarded by the best polo players as 75 per cent. of the game and Nassau unquestionably was in the position of advantage here. Their mounts, versed in polo and bred for polo, had the heels of the wiry mustangs ridden by the westerners and this was a handicap which alone would have stood the Princetonians in steady.

But in addition, as said, the Tigers put up an exhibition of position play and accurate hitting that would not have disgraced an average good "head-on" four. This counted on the attack very heavily and the fact that the men from the glowing Mesa were held without score points to the defensive excellence of Princeton's play.

SCIENTIST OUTDOES NATURE IN COLORING BUTTERFLIES

HAMBURG, June 3.—The plaint brush of nature has been outdone again by science, according to recent announcement, in which the contention is made that by artificial means the coloring of butterfly wings can be reproduced with much more effect and richness than the original themselves.

Prof. Hans Zohrer, in an address before the German Chemical Society, asserted that he frequently had made artificial wings which would make "any butterfly in the world turn green or black with envy."

The coloring in real butterfly wings is brought about by light reflections on the same principal which causes soap bubbles to glisten colorfully in the rays of light. Prof. Zohrer explained that he used resin as the basis in his experiments.

About 15,000,000 tons of coal are consumed annually in London.

This Takes Nerve

Barrelack and with single-rein and halter, Miss Evelyn Walker, Washington, D. C., takes the hurdles with ease. This excellent picture shows her going over the top.

Giants Lick Dodgers Twice; Yanks and Red Sox Win

IF GIANTS ARE LOWERED TASK WILL DEVOLVE UPON WESTERN CLUBS, NOT EAST

(By The Associated Press.)
NEW YORK, June 4.—If John McGraw is to be shut out of his fourth consecutive pennant in the National League, the task apparently will devolve upon the western clubs, the first of which, Chicago, appears at the Polo Grounds today.

In the last western clash the Giants won only six of fifteen games while Brooklyn, Boston and Philadelphia came home with a winning margin. New York nevertheless, leads the league by 2 games by virtue of 22 victories in 28 games with other eastern teams.

The Giant jinx has taken heavy toll of Brooklyn, which has won only two of eleven contests with McGraw's men. New York took two games from the Robins yesterday by scores of 9 to 2 and 3 to 2. McGraw's pitching staff performed in unusual style as Nott and Bentley both finished a full game. It was Nott's best effort since the 1923 world series.

Fournier, National League home run leader, increased his total to eight only yesterday. Rube Jackson, Baily and High also made homers.

Good hurling performances were plentiful. Mitchell, of Philadelphia, held the Cardinals to 2 hits and won 6 to 0. Sand hit a homer in the game.

Zachary, veteran Washington pitcher, interrupted the Detroit drive with a 11 to 1 defeat in which Haney's two singles represented the Tiger total. Cole, who won two games last week for Cobb, was driven from the box.

Eppa Rixey signalled the probably turning point in recent Cincinnati reversals by finally rounding into form and holding Boston to five hits as the Reds won 5 to 1.

Herb Pennock started the Yankees trip through the west with a 6 to 3 victory over the White Sox who bunched hits in the eighth inning for all of their run up and he will make good. Carroll now has on his pitching roster Greys Gibson, Sherrill and Euss, only four twirlers, but he has Catchers Brandon and Ray and Teague, utility player.

Manager Jackson of the Twins, also has made another cut into his material. Shortstop Pulliam being released. Waldron will play short and Jackson himself remain at first in place of Anderson, traded to Rocky Mount Pulliam will now get at his time to his post as manager of the Western Union company in Winston.

Now that they have dropped that Monday game, which of course just had to be done, maybe the Red Sox will get into the game today and surprise all the town by copping couple. But this is probably expecting too much of them.

One night game was hurled in each of the leagues yesterday. In the National League Mitchell allowed the Cardinals only two bingles, both of these being of the scratch variety. In the American Zachary of the Senators gave up only a couple of safeties to the Detroit Tigers. One batsman, Henry, got both of these.

Grandstand Gaff

TODAY is bargain day in three cities in the Piedmont loop. Two games are in order at Raleigh, where meets Danville, at Greensboro, where entertains Winston-Salem; at High Point, who have the Bulls as their guests. Means plenty of action around the circuit. The big prospect from the idleness of account of rain. The Virginia league was also rained out.

Murphy had begun to warm up Lefty Wilson for the game at Raleigh when rain intervened and continued the rest of the afternoon. This probably means that Lefty will pitch one of the games this afternoon. After a day's rest, all of the others except Maitland, who worked Monday should be available for mound duty. Just who Duncan will send in is not known.

SHENANDOAH IS BACK FROM HER 1,000-MILE TRIP

Giant Dirigible of Navy Journeys Across Canadian Border and Back.

(By The Associated Press.)
LAKEHURST, N. J., June 4.—The Shenandoah, giant navy dirigible broke through a heavy bank of fog this morning and returned to its base almost 24 hours after beginning a 1,000-mile trip over three States, during which it crossed the Canadian border at Niagara Falls. During the last few hours of the cruise, the dirigible hovered in a dense fog over its home port, guided only by radio messages and sirens on the field. It was nearly three hours after reaching Lakehurst that the ship was put into its hangar. Commander Zachary Lansdowne, U. S. N., commanded the ship on this its first important cruise since breaking away from its mooring mast early in the year and the only one without Captain Austin Heinen, the German German zeppelin expert as the director of its flight.

The flight was over New Jersey cities from Lakehurst to New York, thence up the Hudson to Albany, westward to Buffalo and Niagara Falls, and back over Pennsylvania via Binghamton, followed by a cruise above the fog bank hanging over the New Jersey coast.

The ship was unaccounted for during an hour and a half early this morning when radio messages were not received from her and the naval station radio operator obtained no answer to his signals.

DEMPSEY EASILY KNOCKS OUT THREE HEAVYWEIGHTS IN RAPID FIRE SUCCESSION

(By The Associated Press.)
LOS ANGELES, Cal., June 4.—Jack Dempsey, leading man in motion pictures and world champion heavyweight in the boxing ring, knocked out three heavyweights for the entertainment of capacity crowd at Vernon Arena last night.

Only one of the champions opponents was able to come back for the second round of punishment. Dempsey, attired in lavender trunks, laid out his men with ease, grace and precision and incidentally added in raising an estimated total of \$25,000 for the Milk Fund of the Los Angeles Philanthropy and Civic Clubs which promoted the card.

Rocco Stragaglia, the impulsive Italian who last summer was credited with blackening Dempsey's eye during a training camp bout, was the first to enter the ring against the champion.

Dempsey belabored him with both fists, executed him on all sides and had him crawling for cover before the going ended the first round. Stragaglia came up groggy for the second session and was again bludgeoned. He seemed anxious to avoid further punishment and Dempsey humored him for a time, but

after a minute had ticked off, he put the Italian to sleep with solar plexus punch.

Efforts to revive Rocco were successful after several minutes.

Joe Ryan, Los Angeles heavyweight, was the next portion served up for the boxing picture actor.

Tall and starling, he looked the conquering hero until a handful of Dempsey's victor smote him. He was like a canvas in a few seconds and seemed inclined to stay there, but the champion courteously lifted him to his feet, later flattening him to the floor again. Once more Dempsey stood the big lad on his feet and that time Ryan stood until the bell.

He refused to come out for the second round, however.

Then Eli Stanton, third and last heavyweight to be led out to the slaughter, stepped lightly into the ring and began dancing about the champion. Dempsey let him dance, then backed off, measured his man carefully and with patting taking position, placed a smashing left hook on Eli's chin. It was a knockout.

Jimmy Duffy, Oakland claimant of the Pacific Coast welterweight championship, outpointed Billy Wells, English title holder in the main event, but of the four round bouts

France Selected Them

In a Paris competition the above young ladies were awarded prizes for the best types of brunet and blonde beauty. Milie Frea, left, was selected from 500, as the loveliest brunet and Milie Sugaut (right) was winner in the blonde class.

RICKARD ABANDONS PLANS FOR 2 BIG FIGHTS, CONCENTRATES ON ONE

(By The Associated Press.)
NEW YORK, June 4.—Tex Rickard announced today he had abandoned plans to promote two big heavyweight battles this year and would concentrate his efforts either upon a match between Luis Firpo and Harry Wills or a title contest between Wills and Jack Dempsey.

The promoter had planned to make a Willie Firpo match an elimination for a championship bout around Labor Day at Boyles Thirty Acres but has cancelled this scheme because of

Firpo's unwillingness to fight before August 20.

Such a date, he pointed out, would make it impossible to hold a title match early in September between the winner and Dempsey, while he prefers not to risk chances with weather conditions and conflicts with other sporting events by arranging for such a bout later than Labor Day.

As a result Rickard declared he would abandon a Dempsey match for this year if he puts on the Wills-Firpo contest but added that he had not as yet determined which to stage.

Schedule For Sunday School League Given

George N. Savage, physical director of the Y. M. C. A. and head of the Sunday School League of Danville, this afternoon announced the scheduled for the season which started on Monday.

The schedule follows:

June 2—First Baptist vs. Keen Street, Stonewall Jackson Park.

June 3—First Presbyterian vs. Cabell Street, Stonewall Jackson Park.

June 4—Calvary vs. Sledd Memorial, Stonewall Jackson Park.

June 5—Christians vs. Shelton Memorial, Danville Military Institute.

June 6—Mt. Vernon vs. Lee Street, Danville Military Institute.

June 9—First Presbyterian vs. Calvary, Stonewall Jackson Park.

June 10—Shelton Memorial vs. Keen Street, Stonewall Jackson Park.

June 11—Christian vs. Cabell Street, Stonewall Jackson Park.

June 12—Lee Street vs. Sledd Memorial, Danville Military Institute.

June 13—Mt. Vernon vs. First Baptist, Danville Military Institute.

June 16—Lee Street vs. Cabell Street, Danville Military Institute.

June 17—Calvary vs. First Baptist, Danville Military Institute.

June 18—First Presbyterian vs. Keen Street, Danville Military Institute.

June 19—Mt. Vernon vs. Christian, Stonewall Jackson Park.

June 20—Shelton Memorial vs. Sledd Memorial, Stonewall Jackson Park.

June 23—Cabell Street vs. Calvary, Stonewall Jackson Park.

June 24—Keen Street vs. Lee Street, Stonewall Jackson Park.

June 25—First Baptist vs. First Presbyterian, Stonewall Jackson Park.

June 26—Shelton Memorial vs. Mt. Vernon, Danville Military Institute.

June 27—Christian vs. Sledd Memorial, Danville Military Institute.

June 30—Keen Street vs. Mt. Vernon, Stonewall Jackson Park.

July 1—Shelton Memorial vs. Calvary, Stonewall Jackson Park.

July 2—Cabell Street vs. Sledd Memorial, Stonewall Jackson Park.

July 4—Lee Street vs. First Baptist, Stonewall Jackson Park.

Who Cares

Just the thing for summer showers! You can carry it around in your pocket. It's one of the new waterproof paper suits. Just stick it in your pocket and when the showers start, put it on.

TOO LATE FOR CLASSIFICATION

Lost: Either On Market Street or On Main between Union and the General Hospital, gray purse, containing one office key, small change and silver fountain pen. Finder notify The Quality Shop and receive reward.

RESULT THE SAME

No matter which way the election goes, you will need our sanitary laundry service and the snow-white finish to enjoy the good old summertime. There is no division of sentiment here, all are agreed that we do the utmost for our customers. Send us your Palm Beach suit and let us show how well we launder and press this material. Wearing apparel and household linens are carefully treated as you will find by joining our long list of pleased customers. The Star Laundry, phone for the wagon—No. 23.

DANVILLE BOY PROMOTED

Friends of Carol R. Fox, night manager of the Union News company at the local Southern station, will be glad to learn that he has been promoted to manager of the Charlotte branch of the Union News company. Mr. Fox left Sunday to take charge of his new concern.

BISHOPS FAVOR DANCE

SPRINGFIELD, Mass., June 4.—One result of the recent convention of the Board of Bishops of the Methodist Episcopal Church here was a recommendation that the church ban on dancing, card playing, theater and circus-going be lifted.

EARL OF DERBY'S COLT SANSOVINO WINS CLASSIC DERBY AT EPSOM DOWNS

(By The Associated Press.)
EPSOM DOWNS, England, June 4.—The Earl of Derby's colt Sansovino won the classic Derby by six lengths on a slow, wet track here today, thus for the first time in 137 years bringing triumph on Epsom Downs to the family which founded the historic race in 1780.

Seven years after the race was founded, the then Lord Derby's horse Sir Peter Teasdale, captured the classic event. Ever since then as Lord Derby remarked the other night, his family has been trying to win the derby. Today it finally scored a brilliant success through Sansovino's fine performance.

Sansovino, by Swaynford out of Gonflette who had been made favorite in the event overnight was 9 to 2 against in the betting.

Second place was captured by Viscount Astor's St. Germans, by Swaynford out of Gonflette who had been made favorite in the event overnight was 9 to 2 against in the betting.

A field of 27 horses started in the classic.

Lord Astor's colors in second place today were by no means new in that position, having occupied it on four previous occasions.

There was no false start in today's race some of the entrants covering a full furlong before being called back. The horses were unruly at the post and the tape was broken several times.

Nothing short of a royal victory could have thrilled and pleased the crowd more than a triumph for the house of derby and the Earl was cheered by hundreds of thousands in the enormous throng as he led his winning horse into the paddock. It was perhaps the proudest moment of his life.

Sansovino's time was 2 minutes, 46.25 seconds, which is 12 1-5 seconds slower than the record Rounding Tattenham corner. Sansovino held the premier position. He kept the lead from then on and won in a canter.

The winner was ridden by Weston.

St. Germans bu Bullock and Hurstwood by V Smyth. Steve Donoghue riding J. B. Joel's Defiance, had the unwelcome distinction of finishing last.

Crop Conditions In Old Dominion

(By The Associated Press.)
WASHINGTON, June 4.—Crop and weather conditions in Virginia and North Carolina during the week ending yesterday were summarized today by the weather bureau as follows:

Virginia:

A cool and wet week; unfavorable except for meadows and pastures, little farm work accomplished. Replanting early corn necessary most sections, much remains unplanted. Tobacco being set out as conditions permit, only small part acreage set. Cotton poor stand; replanting necessary and in some localities fields will be used for other crops. Wheat headed well and in good condition in most sections.

North Carolina:

More favorable generally. Cotton shows some improvement, but condition is poor, except far in some parts of coastal plains. Many fields grassy, but cultivation active latter part of week. Progress of tobacco, corn, peanuts and truck fair to good. Wheat headed, harvesting oats in southeast.

Mike McTigue to Fight Stribling

(By The Associated Press.)
SARATOGA SPRING, N. Y., June 4.—Mike McTigue, light heavyweight boxing champion, who is in training here, announced today he had accepted a \$100,000 offer from Promoter McCormick of Tulsa, Okla., for a return match with Young Stribling in Tulsa, September 6.

The government of Switzerland has built a sun school high in the Alps for ailing children.

Sub-Division Opportunities Now Await You

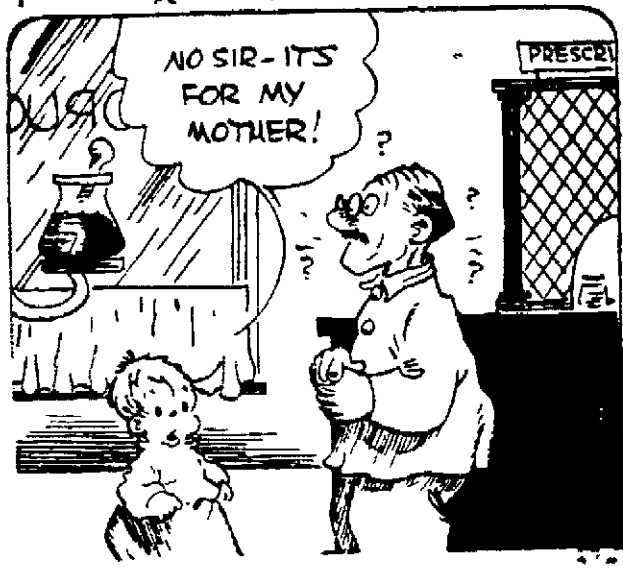

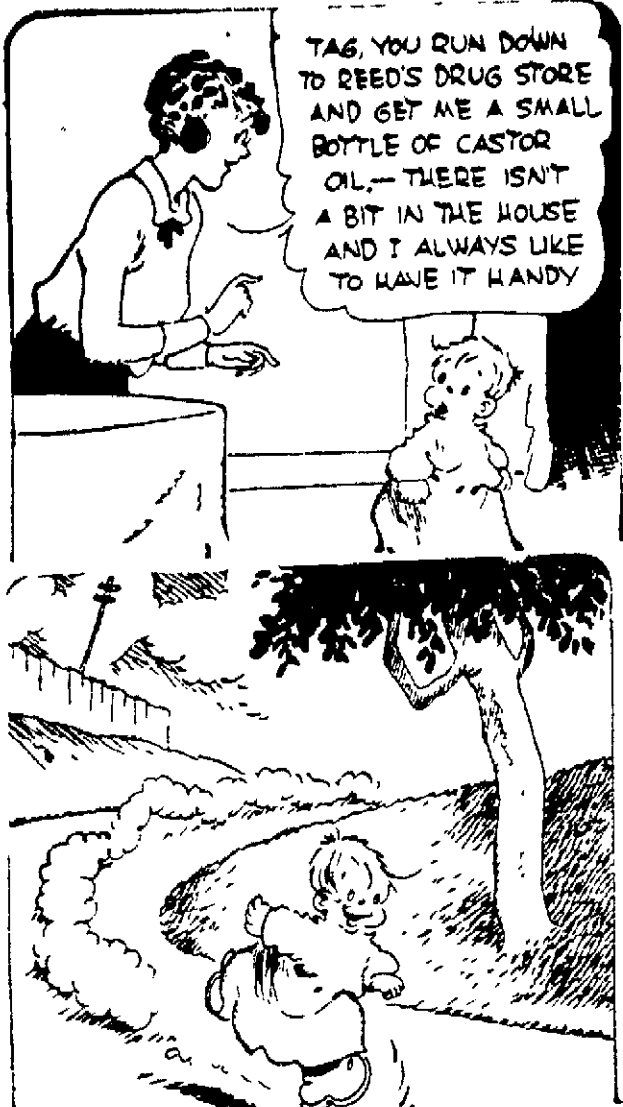

UNDEVELOPED subdivisions are a mecca for investment opportunities. Invest any amount today and it's a short wait before your money will be doubled and in many cases triple itself.

The road frontage of the R. W. James' farm, located two and a half miles from Danville on the Martinsville road, has been subdivided into five-acre home sites.

The newly-laid concrete stretch is the best road leading out of Danville. This is the only development outside of the city that has no colored settlement between it and the city.

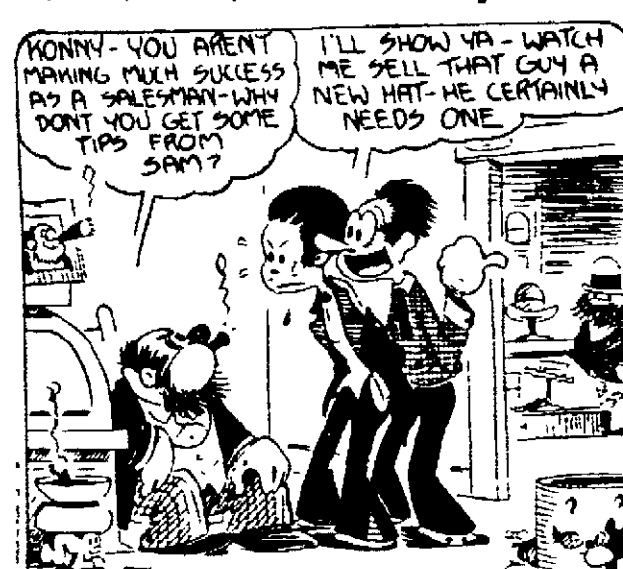

An electric line for lights and power will be erected immediately. For further information, address:

R. W. JAMES
Rorer A. James Building, Danville, Va.
Office Hours: 11 to 12.

MAURETANIA BEGINS 305TH TRANSATLANTIC VOYAGE

(By The Associated Press)
SOUTHAMPTON, Eng., June 3.—When the Mauretania left for New York May 31, she began her 305th crossing of the Atlantic and on docking will have completed one million miles of steaming.
It is claimed that the Mauretania has already steamed a greater distance and carried more passengers than any other trans-Atlantic liner in commission.

PHILANTHROPIST

Ho Kom Tong, banker and philanthropist of the Far East, has arrived in Canada en route to London. He has an appointment with King George. Then he will visit Rome where he has been promised an audience with Pope Pius. He is the first Chinese citizen to receive the order of St. John of Jerusalem. And it is rumored the Vatican soon will knight him in this order.

NOBLES OF MYSTIC SHRINE TO DESCEND ON KANSAS CITY

KANSAS CITY, June 3.—Lavish preparations for the tidal wave of Shriner, expected to sweep into Kansas City for the Fifth Imperial Session of the Nobles of the Mystic Shrine, June 3-5, are being made by the nobles of Ararat Temple here.

"Hang Your Hat with Ararat" is the slogan broadcast, which the convention committee expects to be taken advantage of by 35,000 wearers of the fez.

More than \$300,000 is being expended on decorations, entertainments and features. Between 100 and 200 temples will send their uniformed bodies.

"Pullman yards" will be set up in the railroad yards to house delegations coming on their own special trains. City water and electric lights will be installed, and restaurant and dining car service will be provided conveniently close to the cars. Kansas City hotel men and hundreds of private home owners will care for others.

Sixty-five thousand Shrine convention camel trail markers have been erected along 8,000 miles of highway. They may be seen from Winnipeg to New Orleans and from Los Angeles to Washington, D. C.

Local radio stations announce their entire facilities will be turned over to the Shriner. Shrine bands, glee clubs and other entertainers will broadcast for practically three days and nights.

By order of the Noble Grand, T. W. WILKINS, Sec'y.

KISSING UNCLEAN; PUT SCREEN AROUND ART
TOKYO, June 3.—"Kissing is an unclean habit, the introduction and encouragement of which is not desired by the Japanese" the chief of the metropolitan police of Tokyo said today in explaining why a bamboo screen was erected around a bronze reproduction of Rodin's "The Kiss."

The work was one of several French masterpieces banned from public sight by the police censor.

When the art exhibit loaned to Japan by the French Academy of Art opened yesterday those attending were astonished to find Rodin's "The Kiss," "Spring and Raphael and Coline," "Sleep" covered up.

A representative of the French embassy called at the foreign office to learn the reason for the ban on bronzes and canvasses which were the pride of France. He was referred to the police—who gave the above explanation.

HARDING MEMORIAL STAMPS NICHOLSON COLLECTORS WASHINGTON, D. C., May 3.—The Harding memorial postage stamp seems to be much in demand by stamp collectors throughout the country.

The post office department has been compelled to enjoin postmasters from selling or otherwise furnishing precanceled stamps of that and other issues to persons or concerns not authorized to use precanceled stamps, the conditions governing the use of which specifically provide they can be furnished by postmasters only after special orders they must be used.

Each stamp is accounted for by the users and the mail they carry does not have to be canceled by machine or by hand at the sending post office.

It is not planned to interfere with light wines and beer. The habit of drinking these beverages is so deep-rooted that interference probably would be considered unwise by many Rumanian government.

The main purpose of the proposed legislation is to restrict the diversion of food products from nutritive purposes to that of manufacturing liquors of high alcoholic content. It is proposed to make it illegal for producers of foodstuffs to sell more than a small portion of their products to manufacturers of spirits, and also to impose an additional heavy tax on manufactured strong drinks.

A nationwide educational campaign in favor of the measure is planned by the churches and other civic bodies.

premier, has appointed a commission to assist in drafting legislation designed to curtail and regulate the sale and consumption of strong spirits, particularly "tzulca," a native brandy.

It is not planned to interfere with light wines and beer. The habit of drinking these beverages is so deep-rooted that interference probably would be considered unwise by many Rumanian government.

The main purpose of the proposed legislation is to restrict the diversion of food products from nutritive purposes to that of manufacturing liquors of high alcoholic content. It is proposed to make it illegal for producers of foodstuffs to sell more than a small portion of their products to manufacturers of spirits, and also to impose an additional heavy tax on manufactured strong drinks.

A nationwide educational campaign in favor of the measure is planned by the churches and other civic bodies.

RUMANIA MAY REGULATE TRADE IN STRONG DRINK BUCHAREST, June 3.—The idea of prohibition, at least in a mild form, apparently is beginning to take root in Rumania.

Everyman's Investments

By GEORGE T. HUGHES

TWENTY-SIXTH ARTICLE

New Enterprise.

Every new enterprise carries a business risk. Bear this in mind when you are asked to invest in the securities of a company just organized. The only way you can judge of the future is by the past. When a company has no record it is invariably true that a certain amount of speculation is involved. One of the commonest tricks of the promoter is to create a false impression of a new corporation which he is selling with that of some outstanding success in that particular field. If, for instance, he is selling shares in a new automobile company he will dwell upon the great success of Henry Ford and give an alluring estimate of the amount of money which might have been made if you had only been fortunate enough to obtain an interest in Ford's enterprise at the beginning. The same argument is used by the promoters of promotion stocks of rubber and of motion picture companies. They do not, however, point out that the successes in any new business are far outnumbered by the failures and that it is perfectly true that you might be lucky enough to pick a winner this is not investment in any sense but at the best speculation and at the worst gambling. Insist then if investment in your stock upon a record of earnings over a series of years before you entrust your hard-earned cash to someone else's keeping. If that is not available exercise caution and then more caution. Unless you have money which will be seriously inconvenienced you do not take speculative risks in new enterprises. The exception to this rule is when the enterprise is a strictly local one and you are in a position to keep in touch with the management and to know personally the men who are at the head of the management. Even then remember that if you want to dispose of your interest, that is sell your stock, you may have to shop around until you find someone who will take your stock and at a price which will justify him in taking up the risk you wish to shift. It is easy to sell even a speculative stock when all the facts about the company are obtainable by investors. But shares in a sound and profitable enterprise where the facts are not generally known are not so easy to dispose of.

(Mr. Hughes twenty-seventh article will appear in The Bee next Saturday.)

MORNING COTTON LETTER.

(Thompson & McKinnon.)

NEW YORK, June 4.—Liverpool soft. Weather forecast is generally fair and warmer. Private telegrams in reference to the crop, however, still average unfavorable. The June 2 condition report seems to have stimulated business in West street. Sales yesterday totaled 100,000 pieces of sheeting and print cloths. Some mills in New England and the south are resuming full time.

The market will probably open off on cables and forecast but purchases on any further reactions would seem best as it will be unusually sensitive to any unfavorable change in the weather.

WHAT MAKES

LEVINSON'S glasses best? Personal attention to each person, quick and accurate grinding of the lenses right in the office on specially built machinery and perfect fitting of the frame is the answer.

The REFEREE

BY ALBERT APPLE.

RUSS

Russian farmers are gradually getting back toward pre-war crops. Very gradually, however. Final figures show last year's wheat crop over there was 245 million bushels compared with the record of 973 million bushels in 1913.

The three-fourths drop in production gives an inkling of the malnutrition and starvation that have stalked the land of the ex-tsar. An empty stomach, rather than governmental changes, apparently explains Russian conditions of the last few years.

Total grain crops in 1923 were a bit smaller than the year before, but a fourth larger than in 1921. The 1924 outlook is better.

FRAUDS

The American people certainly like to step up and place a bet on which shell the little pea is under.

In 1924 stock swindlers gently separated the public from 250 million dollars. This year, the plunder from worthless stocks will be four times as much, predicts Henry L. Doherty, the investment banker. That'll be about \$10 for every man, woman and child.

Says Doherty: "Americans are the most gullible investors in the world." Political observers guessed as much, long before Barnum started his museum. As for stock swindlers, they are usually getting something for nothing usually gets nothing for something.

AHEAD

Rev. Clausen enters his six-year-old son in the class of 1941 of an eastern university. He was afraid, if he waited longer, the enrollment list would be overflowed.

Getting quite common, to book a youth several years ahead of college entrance. The colleges are swarming with customers. Higher education is increasingly within reach of more and more of the population. That means, the level of average prosperity is rising.

TICKER TALK

NEW YORK STOCKS.

(By The Associated Press.)

NEW YORK, June 4.—Stock prices strengthened materially today with a wide variety of leading issues advancing 1 1/2 to 1 point in active trading. Buying was stimulated by the Senate's vote to adjourn Congress this week and defeat of the McNary-Haugen farm bill by the House. International Paper and American Water Works established new high levels for the year.

Further improvement in prices took place within the first half hour as active short covering was induced by the view that the latest Washington developments would stimulate business. Several additional new high records were achieved, with high records being achieved in the advance on the ground that danger of unfavorable legislation this summer had been removed. Buying also was extended to many ordinarily inactive issues.

American Water Works continued its seasonal rise, jumping six points to 71 on unverified reports of new acquisitions but profit taking later forced it back to 65 1/2. Gains of a point or so were registered by Delaware and Hudson, Lehigh Valley, Southern Railway, Missouri Pacific pfd. and many leading industrial specialties.

Union Bag and Paper jumped four points; American Tobacco 2 1/4 and Virginia Railway and Power 2. Foreign exchanges opened easier.

NEW PNEUMONIA SERUM

BOSTON, June 4.—An improved serum, which may reduce the death rate for pneumonia by 25 or 50 per cent was described by Dr. Lloyd D. Felton, assistant professor of preventive medicine at the Harvard Medical School, in an address before the New England Health Institute recently.
